Xerox Corporation, Canadian, Latin American Manufacturing Organization, Pittsford, New York; Notice of Negative Determination Regarding Application for Reconsideration

By an application dated January 26, 1995, one of the petitioners requested administrative reconsideration of the subject petition for trade adjustment assistance, TAA. The denial notice was issued on January 12, 1995 and published in the Federal Register on February 10, 1995 (60 FR 8061).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or
- (3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

Investigation findings show that the workers of Canadian Latin American Manufacturing Organization (CLAMO) of Xerox Corporation in Pittsford, New York do not produce an article within the meaning of the Trade Act. The workers instead perform engineering and support services for articles produced overseas.

Only in very limited circumstances are service workers certified for TAA, namely, the worker separations must be caused by a reduced demand for their services from a parent or controlling firm or subdivision whose workers produce an article and who are currently under a certification for TAA. (Emphasis supplied). These conditions were not met for the CLAMO workers of Xerox in Pittsford, New York.

The workers at the Office of Document Products in Henrietta, New York were certified because their services were in direct support of the production done at Xerox' Webster, New York plant whose workers were certified under petition TA-W-29,744.

The Trade Act was not intended to provide TAA benefits to everyone who is in some way affected by foreign competition but only to those who produced an article and experienced a decline in sales or production and employment as a result of increased

imports of like or directly competitive products.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, D.C., this 22nd day of February, 1995.

Victor J. Trunzo,

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

Mine Safety and Health Administration

Advisory Committee; Establishment

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice; extension of comment period.

SUMMARY: In response to comments from the mining community, the Mine Safety and Health Administration (MSHA) is expanding the membership of its proposed advisory committee to eliminate pneumoconiosis among coal miners. To allow time for the mining community to respond to this change, MSHA is extending the comment period on the establishment of the advisory committee.

DATES: Comments must be filed on or before March 17, 1995.

ADDRESSES: Send written comments to the Office of Standards, Regulations and Variances, MSHA, Room 631, 4015 Wilson Boulevard, Arlington, Virginia 22203.

FOR FURTHER INFORMATION CONTACT: Patricia W. Silvey, Director, Office of Standards, Regulations and Variances, MSHA, (703) 235-1910.

SUPPLEMENTARY INFORMATION: On January 31, 1995, the Secretary of Labor published a notice in the Federal Register (60 FR 5947) announcing the establishment of an advisory committee on the elimination of pneumoconiosis among coal miners. Comments regarding the establishment of the committee were due on March 1, 1995, as indicated in a notice extending the comment period published on February 17, 1995 (60 FR 9411).

In the January 1995 notice, MSHA announced that there would be seven committee members: one representing

labor, one representing industry, and five persons who have no economic interest in the industry. In the comments received to date, several members of the mining community requested that the committee be expanded to include two labor representatives and two industry representatives. In response to these comments, MSHA has amended the proposed charter. With this notice, MSHA is announcing a nine-person advisory committee: two representing labor, two representing industry, and five persons who have no economic interest in the industry. To allow persons sufficient time to comment on this change, MSHA is extending the comment period until March 17, 1995.

Dated: March 2, 1995.

Andrea M. Hricko,

Deputy Assistant Secretary for Mine Safety and Health.

NATIONAL INDIAN GAMING COMMISSION

Notice of Approval of Class III Tribal Gaming Ordinances

AGENCY: National Indian Gaming Commission.

ACTION: Notice.

SUMMARY: The purpose of this notice is to inform the public of class III gaming ordinances approved by the Chairman of the National Indian Gaming Commission.

FOR FURTHER INFORMATION CONTACT: Christine Lambert at (202) 632-7003, or by facsimile at (202) 632-7066 (not toll-free numbers).

SUPPLEMENTARY INFORMATION: The Indian Gaming Regulator Act (IGRA) 25 U.S.C. 2701 *et seq.*, was signed into law on October 17, 1988. The IGRA established the National Indian Gaming Commission (the Commission). Section 2710 of the IGRA authorizes the Commission to approve class II and class III tribal gaming ordinances. Section 2710(d)(2)(B) of the IGRA as implemented by 25 CFR 522.8 (58 FR 5811 (January 22, 1993)), requires the Commission to publish, in the Federal Register, approved class III gaming ordinances.

The IGRA requires all tribal gaming ordinances to contain the same requirements concerning ownership of the gaming activity, use of net revenues, annual audits, health and safety, background investigations and licensing of key employees. The Commission, therefore, believes that publication of each ordinance in the Federal Register would be redundant and result in unnecessary cost to the Commission. The Commission believes that publishing a notice of approval of each class III gaming ordinance is sufficient to meet the requirements of 25 U.S.C. 2710(d)(2)(B). Also, the Commission will make copies of approved class III ordinances available to the public upon request. Requests can be made in writing to: National Indian Gaming Commission, 1850 M St., NW, Suite 250, Washington, DC 20036.

The Chairman has approved tribal gaming ordinances authorizing class III gaming for the following Indian tribes:

Absentee—Shawnee Tribe of Oklahoma
Big Lagoon Rancheria
Coast Indian Community of the Resighini Rancheria
Coeur d'Alene Tribe
Colorado River Indian Tribes
Colusa Band of Wintun Indians

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-440]

Cleveland Electric Illuminating Co. et al., Perry Nuclear Power Plant, Unit No. 1; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. NPF-58, issued to the Cleveland Electric Illuminating Company, et al. (the licensee), for operation of the Perry Nuclear Power Plant, Unit No. 1 (PNPP), located in Lake County, Ohio.

Environmental Assessment

Identification of Proposed Action

The proposed action would revise the Technical Specifications (TS) to make them consistent with the current requirements of part 55 of Title 10 of the Code of Federal Regulations (10 CFR part 55), to delete training requirements that have been superseded by 10 CFR 50.120, and to allow an Operations Middle manager to hold a PNPP Senior Reactor Operator (SRO) license in lieu of the Operations Manager.

The proposed action is in accordance with the licensee's applications for amendment dated September 27, 1993, and December 16, 1994.

The Need for the Proposed Action

The proposed action, in the form of TS amendments is needed because training and qualification requirements have evolved over the past few years resulting in the obsolescence of some TS requirements. In addition, the alternative of allowing an Operations middle manager to hold a PNPP SRO license would allow the Operations Manager to return to normal duties following classroom training to continue with efforts to improve the operational performance of PNPP.

Environmental Impacts of the Proposed Action

The NRC staff has completed its evaluation of the proposed action and concludes that there will be no changes to the facility, to the training requirements, or to the intent of the qualification requirements as a result of the proposed license amendment.

Accordingly, the NRC staff concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not affect the
