

Williston Basin states that the revised tariff sheets are being submitted to revise its Rate Schedule ST-1 to implement a provision whereby customers currently served under Rate Schedule ST-1 which were classified to such Rate Schedule for cost mitigation purposes will be billed under a two part rate structure, including a one part SFV designed reservation rate applicable to the Maximum Daily Delivery Quantity (MDDQ) at all point(s) listed on the applicable Service Agreement.

In addition, Williston Basin states it has revised the Gas Supply Realignment Tariff provisions included as Section 39 of the General Terms and Conditions of its FERC Gas Tariff, Second Revised Volume No. 1, to bill Rate Schedule ST-1 shippers which were classified to such Rate Schedule for cost mitigation purposes only, the GSR cost surcharge applicable to Rate Schedule FT-1 customers and remove the associated MDDQ from the development of the Rate Schedule ST-1 GSR cost surcharge.

Williston Basin has requested that the Commission accept this filing to become effective April 1, 1995.
