

products in Category 443 for the period beginning on November 21, 1994 and extending through November 20, 1995.

Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and a Memorandum of Understanding (MOU) dated March 3, 1995 between the Governments of the United States and Guatemala; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on March 23, 1995, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products in the following categories, produced or manufactured in Guatemala and exported during the period beginning on January 1, 1995 and extending through December 31, 1995, in excess of the following restraint limits:

Category	Twelve-month limit <sup>1</sup>
340/640 .....	1,080,379 dozen.
347/348 .....	1,293,629 dozen.
351/651 .....	227,900 dozen.
443 .....	68,344 numbers.
448 .....	42,821 dozen.

<sup>1</sup> The limits have not been adjusted to account for any imports exported after December 31, 1994.

Imports charged to these category limits, except Category 443, for the period January 1, 1994 through December 31, 1994 shall be charged against those levels of restraint to the extent of any unfilled balances. In the event the limits established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this directive.

Should Guatemala become a member of the World Trade Organization (WTO), the limits set forth above will be subject to adjustment in the future pursuant to the Uruguay Round Agreement on Textiles and Clothing and any administrative arrangements notified to the Textiles Monitoring Body.

For visa purposes, you are directed, effective on March 23, 1995, to amend further the directive dated January 24, 1990 to require a visa for textile products in Category 443, produced or manufactured in Guatemala and exported from Guatemala on and after March 23, 1995. Goods in Category 443 which are exported during the period March 23, 1995 through April 22, 1995 shall not be denied entry for the lack of a visa. Goods in Category 443 which are exported after April 22, 1995 must be accompanied by an appropriate export visa.

Beginning on March 23, 1995, the U.S. Customs Service is directed to start signing the first section of the form ITA-370P for shipments of U.S. formed and cut parts in Category 443 that are destined for Guatemala and re-exported to the United States on and after March 23, 1995.

Additionally, pursuant to the Memorandum of Understanding dated March 3, 1995 between the Governments of the United States and Guatemala; and the terms of the Special Access Program, as set forth in 51 FR 21208 (June 11, 1986), 52 FR 26057

(July 10, 1987) and 54 FR 50425 (December 6, 1989), effective on March 23, 1995, guaranteed access levels are being established for properly certified textile products assembled in Guatemala from fabric formed and cut in the United States in the following categories which are re-exported to the United States from Guatemala during the period January 1, 1995 through December 31, 1995:

Category	Guaranteed access level
340/640 .....	520,000 dozen.
347/348 .....	1,000,000 dozen.
351/651 .....	200,000 dozen.
443 .....	25,000 numbers.
448 .....	42,000 dozen.

Any shipment for entry under the Special Access Program which is not accompanied by a valid and correct certification and Export Declaration in accordance with the provisions of the certification requirements established in the directive of January 24, 1990, as amended, shall be denied entry unless the Government of Guatemala authorizes the entry and any charges to the appropriate specific limit. Any shipment which is declared for entry under the Special Access Program but found not to qualify shall be denied entry into the United States.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,  
Rita D. Hayes,  
*Chairman, Committee for the Implementation of Textile Agreements.*

BILLING CODE 3510-DR-F

**DEPARTMENT OF DEFENSE**

**Office of the Secretary**

**Defense Science Board Task Force on Combat Identification**

**ACTION:** Notice of advisory committee meetings.

**SUMMARY:** The Defense Science Board Task Force on Combat Identification will meet in closed session on April 18-19, May 9-10, and June 13-14, 1995 at the MITRE Corporation, Bedford, Massachusetts.

The mission of the Defense Science Board is to advise the Secretary of Defense through the Under Secretary of Defense (Acquisition and Technology) on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings the Task Force will evaluate the DoD long term strategy and plan for development and fielding of a comprehensive situational awareness

(SA) and combat identification (CID) architecture.

In accordance with Section 10(d) of the Federal Advisory Committee Act, P.L. No. 92-463, as amended (5 U.S.C. App. II, (1988)), it has been determined that these DSB Task Force meetings, concern matters listed in 5 U.S.C. 552b(c)(1) (1988), and that accordingly these meetings will be closed to the public.

Dated: March 16, 1995.

**Patricia L. Toppings,**

*Alternate OSD Federal Register Liaison Officer, Department of Defense.*

BILLING CODE 5000-04-M

**Department of the Army**

**Granting of Exclusive License**

**AGENCY:** U.S. Army Research Laboratory, DOD.

**ACTION:** Notice of intent.

In accordance with 37 CFR 404.7(a)(1)(i), announcement is made of a prospective exclusive license of U.S. Patent Nos. 4,754,237, entitled, "Switchable Millimeter Wave Microstrip Circulator;" 4,749,966, entitled, "Millimeter Wave Microstrip Circulator;" and 4,862,117, entitled, "Compact Millimeter Wave Microstrip Circulator."

**DATES:** Written objections or comments must be filed on or before May 22, 1995.

**ADDRESSES:** Commander, U.S. Army Communications-Electronics Command, ATTN: AMSEL-LG-L, Fort Monmouth, NJ 07703-5010.

**FOR FURTHER INFORMATION CONTACT:** Mr. William H. Anderson, (908) 532-4112.

**SUPPLEMENTARY INFORMATION:** The inventions described in the above mentioned patents relate to Y-junction or cone-shaped circulators that are based on ferrite materials. U.S. Patent No. 4,754,237 was filed on September 21, 1987, given serial number 99,371, and issued to Stern and Babbit on June 28, 1988; U.S. Patent No. 4,749,966 was filed July 1, 1987, given Serial number 68,394 and issued to Stern and Babbit on June 7, 1988, U.S. Patent No. 4,862,117 was filed on January 27, 1989, given Serial Number 302,509, and issued to Stern and Babbit on August 28, 1989.

Rights to these United States Patents are owned by the United States of America, as represented by the Secretary of the Army. Under the authority of section 11(a)(2) of the Federal Technology Transfer Act of

1986 (Pub. L. 99-502) and section 207 of title 35, United States Code, the Department of the Army, as represented by the U.S. Army Research Laboratory, intends to grant a limited term exclusive license for the above mentioned patents to Princeton Microwave Technology, Inc., a New Jersey manufacturer with principal offices at 3 Nami Lane, Unit 10, Mercerville, New Jersey 98619.

Pursuant to 37 CFR 404.7(a)(1)(i), any interested party may file written objections to this prospective exclusive license arrangements. Written objections should be directed to the above address.

**Kenneth L. Denton,**

*Army Federal Register Liaison Officer.*

BILLING CODE 3710-08-M

## Corps of Engineers

### Joint Draft Environmental Impact Statement (EIS)/Environmental Impact Report (EIR)

**AGENCY:** U.S. Army Corps of Engineers, Sacramento District, DOD.

**ACTION:** Notice of intent.

**SUMMARY:** To prepare a joint draft Environmental Impact Statement (EIS)/Environmental Impact Report (EIR) for the proposed aggregate mining of approximately 1250 acres of land within the Morrison Creek Drainage Basin north of Highway 16, Sacramento County, California. The area evaluated by the EIR/EIS is bounded roughly by Kiefer Boulevard to the north, Excelsior Road to the east, Jackson Road (Highway 16) to the south and Bradshaw Road to the west.

**ADDRESSES:** U.S. Army Engineer District, Sacramento, 1325 J Street, Sacramento, California 95814-2922.

**FOR FURTHER INFORMATION CONTACT:** Ms. Karen Shaffer, (916) 557-5269.

**SUPPLEMENTARY INFORMATION:** There are three mining areas within the 1250 acre study area. They are known as Aspen V North, Aspen VI and Granite I. Teichert Aggregates and Granite Construction Company have each applied to the Corps of Engineers for Department of the Army permits pursuant to Section 404 of the Clean Water Act. These applications are being evaluated jointly because they are adjacent to one another and propose to share planning and cost of reclamation and mitigation. Teichert proposes to impact 42.88 acres of wetlands and other waters subject to DOA jurisdiction on their Aspen VI site, while Granite's impacts amount to 16.16 acres of wetlands and other waters subject to DOA jurisdiction on their Granite I site. Aspen VI and Granite I,

combine for a total of 1061 acres in size with a total of 59.04 acres of waters of the United States being impacted. The Teichert site known as Aspen V North is approximately 184 acres in size with no jurisdictional waters of the United States. Presently, Aspen VI and Granite I consist of relatively flat terrain with Morrison Creek running through roughly from north east to south west and Mather Drain running through roughly from north to south. Granite I and Aspen VI are used for grazing and Aspen V North is relatively flat and is used for farming except in some areas that have already been mined. Because Aspen V North has no waters of the United States and can continue to be mined without a Department of the Army permit, the applicants have proposed to use the reclaimed pit as the mitigation area for vernal pool creation. In this way, the pools can be built on the Aspen V North site as they are impacted on the Aspen VI and Granite I sites with less temporal loss. The applicants proposed to reroute Mather Drain and Morrison Creek into a bypass channel that will be construed at the present grade. Low flows and flood flows will be directed to the pit floor where the applicants propose to mitigate for project impacts to seasonal wetlands and creek channel. The pit floor will also serve as a detention basin for storm water during peak flows.

### Alternatives

The alternatives being considered at this time are:

- a. Aggregate mining on site as proposed by the applicants.
- b. Downsizing mining operation on site so as to avoid some waters of the United States.
- c. Alternative site location.
- d. No action (no project alternative).

### Significant Issues

The significant issues which have been identified to date and which will be analyzed in the report are:

- a. The need for additional aggregate material in Sacramento.
- b. Impacts to wetlands and ability to create vernal pools on a reclaimed pit floor.
- c. Impacts to threatened and endangered species.
- d. Impacts to wildlife.
- e. Impacts to the hydrology of the Morrison Creek drainage basin.
- f. Need for flood storage on the Morrison Creek drainage basin.
- g. Impacts to water quality.
- h. Impacts to traffic (alternative site location).
- i. Impacts to aesthetics.
- j. Impacts to noise levels.

### Other Environmental Review and Consultation

Environmental review and consultation as required by Sections 401 and 404 of the Clean Water Act, as amended (33 U.S. Code 1341 and 1344); the Fish and Wildlife Coordination Act (16 U.S. Code 661 *et seq.*); the National Historic Preservation Act of 1966, as amended (16 U.S. Code 470 *et seq.*); the Endangered Species Act of 1973, as amended (16 U.S. Code 1531 *et seq.*); Executive Order 11990, "Protection of Wetlands," 24 May 1977; and other applicable statutes or regulations will be conducted concurrently with the EIR/EIS review process.

Another joint draft EIR/EIS is being prepared concurrently for the Morrison Creek drainage basin south of Highway 16. This report will focus on the following mining projects: Granite Vineyard, Aspen III South, Aspen IV South and Aspen V South. Both EIR/EIS documents will evaluate impacts to the entire Morrison Creek drainage basin within cumulative impacts.

The Sacramento District of the U.S. Army Corps of Engineers will issue a 30-day public notice, concurrently with this notice, to initiate the scoping process. The public notice will be sent to all known, interested parties; and will request that the reviewers provide comments on the topical scope, alternatives, and major issues to be covered in the Draft EIR/EIS. We intend to accomplish the scoping process in this manner; however, if it is perceived that this method is not adequate, the need for a public scoping meeting will be considered.

### Schedule

We estimate the draft EIR/EIS will be made available to the public in May 1995.

Questions concerning the proposed action and Draft EIR/EIS should be addressed directly to Ms. Karen Shaffer, Regulatory Branch, U.S. Army Corps of Engineers, 1325 J Street, Room 1444, Sacramento, California 95814-2922, telephone (916) 557-5269.

## DEPARTMENT OF EDUCATION

### Notice of Proposed Information Collection Request

**AGENCY:** Department of Education.

**ACTION:** Notice of proposed information collection request.
