BILLING CODE 6210-01-F

Kari Torgerhagen, et al.; Change in Bank Control Notices; Acquisitions of Shares of Banks or Bank Holding Companies

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. Once the notices have been accepted for processing, they will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than April 6, 1995.

A. Federal Reserve Bank of Minneapolis (James M. Lyon, Vice President) 250 Marquette Avenue, Minneapolis, Minnesota 55480:

1. *Kari Torgerhagen*, Milan, Minnesota; to retain an additional 8.96 percent, for a total of 29.04 percent, of the voting shares of Milan Agency, Inc., Milan, Minnesota, and thereby indirectly acquire Prairie State Bank, Milan, Minnesota.

2. *Erik Thompson*, Milan, Minnesota; to retain an additional 8.22 percent, for a total of 26.66 percent, of the voting shares of Milan Agency, Inc., Milan, Minnesota, and thereby indirectly acquire Prairie State Bank, Milan, Minnesota.

Board of Governors of the Federal Reserve System, March 17, 1995.

Jennifer J. Johnson,

Deputy Secretary of the Board.

BILLING CODE 6210-01-F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

National Organ Transplant Act; Grants to Increase Organ Donation

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice of the availability of grant funds.

SUMMARY: The Health Resources and Services Administration (HRSA) announces that fiscal year (FY) 1995 funds are available for grants for assistance to organ procurement organizations and other private nonprofit entities to develop and implement a plan to increase the number of organ donors from non-donor hospitals that have characteristics similar to donor hospitals. The grants are authorized by Sections 371 and 374 of the Public Health Service (PHS) Act, as amended. Funds are appropriated under Pub. L. 103-333.

DATES: To receive consideration, grant applications must be received by the close of business May 22, 1995.

Applications will be considered as meeting the deadline if they are either: (1) Received on or before the deadline date; or (2) postmarked on or before the deadline date and received in time for submission to the review committee. A legibly dated receipt from a commercial carrier or U.S. Postal Service will be accepted in lieu of a postmark. Private metered postmarks will not be acceptable as proof of timely mailing.

Hand delivered applications must be received by 5:00 p.m. May 22, 1995. Applications received after the deadline will be returned to the applicant.

ADDRESSES: Grant applications and additional information regarding business, administrative or fiscal issues related to the awarding of grants under this Notice may be requested from Ms. Glenna Wilcom, Grants Management Officer (BHRD), Parklawn Building, Room 7-15, 5600 Fishers Lane, Rockville, Maryland 20857, telephone (301) 443-2280. Applicants for grants will use Form PHS 5161-1 (revised 7/92), approved under OMB Control Number 0937-0189. Completed applications must be mailed to the office of the Grants Management Officer (BHRD).

FOR FURTHER INFORMATION CONTACT:

Additional information relating to technical or program issues may be obtained from Mr. Remy Aronoff, Chief, Operations and Analysis Branch, Division of Organ Transplantation, Parklawn Building, Room 7-18, 5600 Fishers Lane, Rockville, Maryland 20857, (301) 443-7577.

SUPPLEMENTARY INFORMATION:

Background and Objective

Section 371 of the Public Health Service (PHS) Act authorizes a program of grants and special projects for the purpose of increasing the number of organ donors.

The principal purpose of this grant program is to increase the availability of donor organs in this country. In past years, the program has attempted to further this objective primarily through support of public and professional education projects. This year, the grant program will focus on increasing the number of organ donors from non-donor hospitals that have characteristics similar to donor hospitals. Research conducted by Johns Hopkins School of Hygiene and Public Health, under contract to HRSA's Division of Organ Transplantation, indicates that approximately 850 hospitals with organ donor capability did not have a solid organ donor from their hospital in any of the years 1991, 1992, or 1993. A hospital was considered to have donor capability if it had a staff neurologist, an anesthesiologist, an operating room, and an intensive care unit. These services were considered essential for the identification and determination of brain death, and the maintenance and procurement of organs. An additional criterion was bed capacity of 50 beds or more.

In 1992, 29,499 patients were on the transplant waiting list. That same year,

a total of 14,068 organs were recovered for transplant from 4,277 cadaveric donors. Also during that year 2,564 patients died while waiting for an organ. In the last 2 years the cadaveric donor rate has increased slightly from approximately 4,500 to 4,800 donors per year. Currently there are over 37,000 people registered on the Organ Procurement and Transplantation Network's transplant waiting list.

In an effort to improve the procurement process and the organ donor rate at the 850 hospitals mentioned above, two (2) grants will be awarded for projects which focus on increasing donation at these hospitals; in particular, hospitals with 150 beds or more. The grantee will be required to develop and implement a methodology with the objective of producing at least one solid organ donor at no fewer than 50 percent of the identified hospitals located in the designated organ procurement organization (OPO) service area.

Availability of Funds

Pending the availability of funds, up to \$100,000 is available for the grant program in fiscal year (FY) 1995. Two (2) grants for \$50,000 each will be awarded. Applicants are requested to propose a two-year plan specifying the work to be done each year. Funding for the second year (an additional \$50,000) will be contingent on the availability of funds and progress toward objectives. Based on the applications received, the program may decide to award just one grant in this fiscal year for an amount not to exceed \$100,000. See the **Application Evaluation Criteria** section for additional information on funding.

Eligible Applicants

The grant program is open to organ procurement organizations (OPOs) and other private nonprofit entities involved with organ donation and transplantation.

Joint applications of two or more *eligible* entities may be submitted, e.g., an OPO and a non-OPO, or two OPOs. In such instances, one entity must be designated as the grantee institution on the application. If a non-OPO wishes to apply for a grant under this grant program, it must have a written cooperative agreement with the designated OPO for the non-donor hospitals identified in the project. Preference will be given to those proposals involving a large number of hospitals that have the greatest potential of generating at least one solid organ donor.

Additional Information

A listing of non-donor hospitals having characteristics similar to donor hospitals within individual OPO service areas is available upon request. Copies of the study by Anne Klassen of the Johns Hopkins School of Hygiene and Public Health are also available. Requests should be directed to Mr. Remy Aronoff or Ms. Philomena Green at (301) 443-7577.

Application Evaluation Criteria

Grant applications will be evaluated by a review committee according to the following criteria:

- Consistency with the program objective and the extent to which the program objective will be met through the proposed project;
- Appropriateness and adequacy of the proposed method(s);
- Appropriateness of the work plan and schedule for organizing and completing the project;
- Capability of the organization to complete the project as proposed;
- Adequacy of supporting documentation justifying the proposal;
- Reasonableness of the budget; and
- Qualifications of the project director and staff.

Final funding decisions for these grants are the responsibility of the Director, BHRD. Preference will be given to those proposals involving a large number of non-donor hospitals that have the greatest potential of generating at least one solid organ donor. This means approved applications involving a large number or percentage of the non-donor hospitals in an individual OPO service area may be considered for funding ahead of approved applications involving a smaller number or percentage of non-donor hospitals in an individual OPO service area.

Allowable Costs

The basis for determining the allowability and allocability of costs charged to PHS grants is set forth in 45 CFR part 74, subpart Q. The three separate sets of cost principles prescribed for recipients of grants for OPOs and other private nonprofit entities are: OMB Circular A-21 for institutions of higher education; 45 CFR part 74, Appendix E for hospitals; and OMB Circular A-122 for nonprofit organizations.

Other Award Information

Grants awarded under this Notice are subject to the provisions of Executive Order 12372, as implemented by 45 CFR part 100, which allows States the option of setting up a system for reviewing

applications within their State for assistance under certain Federal programs. The application packages made available by HRSA will contain a listing of States that have chosen to set up such a review system and will provide a point of contact in the State for the review. Applicants (other than federally recognized Indian tribes) should contact their State Single Point of Contact (SPOC) and follow the SPOC's instructions prior to the submission of an application. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. The SPOC has 60 days after the application deadline date to submit its review comments. The granting agency does not guarantee to "accommodate or explain" for State process recommendations it receives after that date.

The Public Health Service strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

The Public Health Service urges applicants to submit work plans that address specific objectives of Healthy People 2000. Potential applicants may obtain a copy of Healthy People 2000 (Full Report: Stock No. 017-001-00474-0) or Healthy People 2000 (Summary Report: Stock No. 017-001-00473-1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325 (Telephone 202-783-3238).

The OMB Catalog of Federal Domestic Assistance Number for this program is 93.134.

Dated: March 20, 1995.

Ciro V. Sumaya,

Administrator.
