Rural Utilities Service

Saluda River Electric Cooperative; Finding of No Significant Impact

AGENCY: Rural Utilities Service, USDA.

ACTION: Notice of Finding of No Significant Impact.

SUMMARY: Notice is hereby given that the Rural Utilities Service (RUS) has made a finding of no significant impact (FONSI) with respect to its action related to the purchase, installation, and operation of a 6,000 kilowatt diesel generation facility by Saluda River Electric Cooperative (Saluda River). The FONSI is based on a Borrower's Environmental Report (BER) submitted to RUS by Saluda River. RUS conducted an independent evaluation of the BER and concurs with its scope and content. In accordance with Environmental Policies and Procedures published by

the Rural Electrification Administration, the predecessor of RUS, at 7 CFR § 1794.61, RUS has adopted Saluda River's BER as its environmental assessment of the proposed project.

FOR FURTHER INFORMATION CONTACT:

Lawrence R. Wolfe, Chief, Environmental Compliance Branch, Electric Staff Division, RUS, South Agriculture Building, Ag Box 1569, Washington, DC 20250, telephone (202) 720-1784.

SUPPLEMENTARY INFORMATION: The proposed generation facility is to be located adjacent to Saluda River's existing Webb Substation. This substation is located approximately 2.5 miles southwest of Carlisle, South Carolina, on the south side of Highway 72 & 121. The substation and the site of the proposed generation facilities are on property owned by Webb Forging Company.

The generation facility will consist of two 3,000 kilowatt diesel generators with provisions for additional units in the future. The generators will be housed in a pre-engineered metal building covering approximately 3,600 square feet. The fuel for the engines that will turn the generators will be number 2 diesel fuel. A 12,000 gallon fuel storage tank will be located outside the metal building housing the generators. The total area to be graded for the building and fuel tank will not exceed 1 acre. A containment system will be designed and constructed in such a manner to ensure the surrounding environment is protected from pollution in the event of spills from the tank and/or associated piping. The outside piping will be double walled fiberglass. Inside piping will be black iron steel.

The generators will be equipped with supervisory control and data acquisition so that they can be monitored and controlled remotely. Total hours that the generators are run will be metered electronically and logged for maintenance and regulatory purposes.

The alternatives of no action, conservation, purchasing power from other sources, and alternative generation technologies were considered.

Copies of the environmental assessment and FONSI are available for review at, or can be obtained from, RUS at the address provided herein or from Mr. Joseph M. Galbreath, Project Manager, Saluda River Electric Cooperative, P.O. Box 929, Laurnes, South Carolina 29360, telephone (803) 682-3169.

Dated: April 6, 1995.

Adam M. Golodner,

Deputy Administrator, Program Operations.

North Pacific Fishery Management Council; Agenda Change

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of agenda change.

SUMMARY: An agenda for public meetings of the North Pacific Fishery Management Council (Council) and its advisory bodies, which are scheduled during the week of April 17, 1995, was published on March 17, 1995. Modifications to the agenda were published on March 31, 1995, and the following additional change is made to the meeting agenda. All other information previously published remains unchanged.

FOR FURTHER INFORMATION CONTACT: Dave Witherell, North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, AK 99510; telephone: (907) 271-2809.

SUPPLEMENTARY INFORMATION: The initial agenda published on March 17, 1995 (60 FR 14425) was changed to remove two agenda items, add an additional item, and change the schedule on March 31 (60 FR 16621). This additional change adds another agenda item.

Discussion and final approval of a fishery management plan (FMP) for the scallop fisheries in the exclusive economic zone off Alaska has been added to the agenda. This FMP may go forward either as a Council FMP or Secretarial FMP, and may extend regulations implemented by emergency rule published on March 1, 1995, (60 FR 11054). The Council also will discuss how to proceed with further amendments to the plan. Discussion of these topics may occur as early as April 19 (rather than April 21 as shown in the current schedule).

Dated: April 7, 1995.
