

most adverse BIA to all sales of axes. See the *Final Determination of Sales at Less Than Fair Value: Certain Helical Spring Lock Washers From the People's Republic of China* (58 FR 48833, September 20, 1993) (comment 6). As BIA, we are using the highest margin calculated for that class or kind in the investigation or any review of sales of subject merchandise from that same country.

At the onset of verification, SMC presented certain sales of axes, picks, and splitting mauls which had not been reported to the Department in the

questionnaire responses. As discussed above, we have applied BIA to all sales of axes. With regard to picks and splitting mauls, since these sales data had not been previously reported to the Department in any of SMC's questionnaire responses, we have applied BIA to these sales.

Because SMC reported most of its sales of these classes or kinds of merchandise in its questionnaire responses and because it was an oversight on the part of SMC that these certain sales were not presented to the Department until verification, we are

assigning as BIA the higher of either: (1) The highest margin calculated for the same class or kind of merchandise for that company in any previous review or the original investigation; or (2) the highest margin calculated for the same class or kind of merchandise for any respondent that supplied an adequate response for the current review.

Preliminary Results of the Reviews

As a result of our reviews, we preliminarily determine that the following margins exist:

Manufacturer/exporter	Time period	Margin (percent)
Fujian Machinery & Equipment Import & Export Corporation:		
Axes/Adzes	2/1/92-1/31/93	89.99
Bars/Wedges	2/1/92-1/31/93	156.68
Hammers/Sledges	2/1/92-1/31/93	130.93
Picks/Mattocks	2/1/92-1/31/93	249.35
Shandong Machinery Import & Export Corporation:		
Axes/Adzes	2/1/92-1/31/93	89.99
Bars/Wedges	2/1/92-1/31/93	167.72
Hammers/Sledges	2/1/92-1/31/93	131.38
Picks/Mattocks	2/1/92-1/31/93	140.34

Parties to the proceedings may request disclosure within 5 days of the date of publication of this notice. Any interested party may request a hearing within 10 days of publication. Any hearing, if requested, will be held 44 days after the publication of this notice, or the first workday thereafter. Interested parties may submit case briefs within 30 days of the date of publication of this notice. Rebuttal briefs, which must be limited to issues raised in the case briefs, may be filed not later than 37 days after the date of publication. See section 353.38(d) of the Department's regulations. The Department will publish a notice of final results of these administrative reviews, which will include the results of its analysis of issues raised in any such comments.

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. Individual differences between U.S. price and FMV may vary from the percentages stated above. The Department will issue appraisal instructions directly to the Customs Service.

Furthermore, the following deposit requirements will be effective upon publication of the final results of these administrative reviews for all shipments of HFHTs from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) The case deposit rates for the reviewed companies named

above which have separate rates will be the rates for those firms as stated above; (2) for all other PRC exporters, the cash deposit rates will be the rates established in the LTFV investigations; and (3) the cash deposit rates for non-PRC exporters of subject merchandise from the PRC will be the rates applicable to the PRC supplier of that exporter. The rates established in the LTFV investigations are 45.42 percent for hammers/sledges, 31.76 percent for bars/wedges, 50.81 percent for picks/mattocks, and 15.02 percent for axes/adzes. These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative reviews.

Notification of Interested Parties

This notice serves as a preliminary reminder to importers of their responsibility under section 353.26 of the Department's regulations to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

These administrative reviews and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and section 353.22 of the Department's regulations.

Dated: April 13, 1995.

Susan G. Esserman,
Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

U.S. Automotive Parts Advisory Committee; Closed Meeting

AGENCY: International Trade Administration, Commerce.

ACTION: Closed meeting of U.S. Automotive Parts Advisory Committee.

SUMMARY: The U.S. Automotive Parts Advisory Committee (the "Committee") advises U.S. Government officials on matters relating to the implementation of the Fair Trade in Auto Parts Act of 1988. The Committee: (1) reports annually to the Secretary of Commerce on barriers to sales of U.S.-made auto parts and accessories in Japanese markets; (2) assists the Secretary in reporting to the Congress on the progress of sales of U.S.-made auto parts in Japanese markets, including the formation of long-term supplier relationships; (3) reviews and considers data collected on sales of U.S.-made auto parts to Japanese markets; (4) advises the Secretary during consultation with the Government of Japan on these issues; and (5) assists in establishing priorities for the Department's initiatives to increase U.S.-made auto parts sales to Japanese

markets, and otherwise provide assistance and direction to the Secretary in carrying out these initiatives. At the meeting, committee members will receive briefings on the status of ongoing consultations with the Government of Japan and will discuss specific trade and sales expansion programs related to U.S.-Japan automotive parts policy.

DATE AND LOCATION: The meeting will be held on April 25, 1995 from 10:00 a.m. to 3:00 p.m. at the U.S. Department of Commerce in Washington, D.C. This meeting is being announced less than fifteen days prior to the meeting because the Department wanted to brief members at the conclusion of the latest round of automotive framework talks with the Government of Japan and was unable to determine the availability of members prior to the fifteen day requirement.

FOR FURTHER INFORMATION CONTACT: Dr. Robert Reck, Office of Automotive Affairs, Trade Development, Room 4036, Washington, D.C. 20230, telephone: (202) 482-1418.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Administration, with the concurrence of the General Counsel formally determined on July 5, 1994, pursuant to Section 10(d) of the Federal Advisory Act, as amended, that the series of meetings or portions of meetings of the Committee and of any subcommittee thereof, dealing with privileged or confidential commercial information may be exempt from the provisions of the Act relating to open meeting and public participation therein because these items are concerned with matters that are within the purview of 5 U.S.C. 552b(c)(4) and (9)(B). A copy of the Notice of Determination is available for public inspection and copying in the Department of Commerce Records Inspection Facility, Room 6020, Main Commerce.

Dated: April 17, 1995.

John White,

Acting Director, Office of Automotive Affairs.

National Oceanic and Atmospheric Administration

[Docket No. 950113015-5089-02]

RIN 0648-ZA12

Global Learning and Observations To Benefit the Environment (GLOBE)

AGENCY: National Oceanic and Atmospheric Administration, COMMERCE (DOC).

ACTION: Notice of program and invitation to participate.

SUMMARY: This is an invitation for U.S. K-12 schools to participate in an international environmental science and education program known as Global Learning and Observations to Benefit the Environment (GLOBE). U.S. schools can participate in the GLOBE Program if they meet the "basic requirements" described in the announcement below. This notice revises a previous invitation to schools to participate in the GLOBE Program, which was published in the **Federal Register** on November 23, 1994 (59 FR 60351). Federal assistance is not available at this time to enable schools to participate in the GLOBE Program to enable them to meet the "basic requirements." In addition, more detailed information is provided for the scientific measurement instruments, other program information is updated, and the Government no longer provides Internet access to registered schools. This notice incorporates an Announcement section that includes a form for use by schools to register to participate in the GLOBE Program. This Announcement is also available in electronic and hard copy form from the sources listed below.

The GLOBE Program is a hands-on program that joins students, educators, and scientists from around the world in studying the global environment. GLOBE is a worldwide network of students who work under the guidance of GLOBE-trained teachers to make environmental observations at or near their schools, report their data to a GLOBE processing facility, receive and use global images created from their data, and study environmental topics in their classrooms. GLOBE in the United States is managed by an interagency team that includes the National Oceanic and Atmospheric Administration (NOAA), the National Aeronautics and Space Administration (NASA), the National Science Foundation (NSF), the Environmental Protection Agency (EPA), and the Department of Education and State. GLOBE leadership also includes the Council on Environmental Quality and the Office of Science and Technology Policy, both within the Executive Office of the President. NOAA is the lead agency for GLOBE. As lead agency, NOAA invites U.S. K-12 schools to participate in the GLOBE Program as described in the announcement below.

DATES: This invitation is open until further notice.

FOR FURTHER INFORMATION CONTACT: Further information or copies of the Announcement below, which includes a

registration form, may be obtained by connecting to the GLOBE Internet World Wide Web server at <http://www.globe.gov>, by sending a request by electronic mail to info@globe.gov, by calling the GLOBE information line at 202-395-6500, by mail to Thomas N. Pyke, Jr., Director, The GLOBE Program, 744 Jackson Place, N.W., Washington, D.C. 20503, or delivered by express or courier service to Director, The GLOBE Program, The White House, New Executive Office Building, 725 17th Street, N.W., Room G-1, Washington, D.C. 20006.

ANNOUNCEMENT: April 20, 1995.

The GLOBE Program

744 Jackson Place / Washington, DC 20503

U.S. SCHOOLS ARE INVITED TO PARTICIPATE IN THE GLOBE PROGRAM

U.S. K-12 schools are invited to participate in a new international environmental science and education program known as Global Learning and Observations to Benefit the Environment (GLOBE). U.S. schools can participate in the GLOBE Program by agreeing to meet a set of GLOBE "basic requirements" as listed below in "How to Become a GLOBE Schools" and completing the attached registration form.

The GLOBE Program is a hands-on program that joins students, educators, and scientists from around the world in studying the global environment. GLOBE is a worldwide network of students who work under the guidance of GLOBE-trained teachers to make environmental observations at or near their schools, report their data to a GLOBE processing facility, receive and use global images created from their data, and study environmental topics in their classrooms. The data acquired by students will be used worldwide by environmental scientists in their research to improve our understanding of the global environment.

GLOBE is managed by an interagency team that includes the National Oceanic and Atmospheric Administration (NOAA), the National Aeronautics and Space Administration (NASA), the National Science Foundation (NSF), the Environmental Protection Agency (EPA), and the Departments of Education and State. GLOBE leadership also includes the Office on Environmental Policy and the Office of Science and Technology Policy in the Executive Office of the President. NOAA is the lead agency for GLOBE.
