Tennessee Gas Pipeline Company; Notice of Filing

May 18, 1995.

Take notice that on May 12, 1995, Tennessee Gas Pipeline Company (Tennessee) tendered for filing a schedule displaying the effective and termination dates for contracts that caused a reduction in billing determinants in Docket No. RP95-216.

In addition, Tennessee is revising its billing determinants to correct an inadvertent reduction to NIPSCO's contract number 548 effective July 1, 1995. No change in the GSR surcharge is required as a result of this correction.

Tennessee states that copies of the filing have been mailed to all affected parties.

Any persons desiring to protest said filing should file a motion to protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR Section 385.211). All such protests should be filed before May 25, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

SUPPLEMENTARY INFORMATION: The Agency has issued Reregistration Eligibility Decision (RED) documents for the pesticidal active ingredients listed above. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and

regulatory standards. The data base to support the reregistration of each of the chemicals listed above is substantially complete. EPA has determined that all currently registered products subject to reregistration containing these active ingredients are eligible for reregistration.

All registrants of products containing one or more of the above listed active ingredients have been sent the appropriate RED documents and must respond to labeling requirements and product specific data requirements (if applicable) within 8 months of receipt. Products containing other active ingredients will not be reregistered until those other active ingredients are determined to be eligible for reregistration.

The reregistration program is being conducted under Congressionally mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing these REDs as final documents with a 60-day comment period. Although the 60-day public comment period does not affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments will be carefully considered by the Agency. If any comment significantly affects a RED, EPA will amend the RED by publishing the amendment in the **Federal Register**.
