Foreign-Trade Zones Board

[Docket 26-95]

Foreign-Trade Zone 75—Phoenix, Arizona; Application for Subzone Status, SGS-Thomson Microelectronics, Inc. (Semiconductors), Phoenix, Arizona

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City of Phoenix, Arizona, grantee of FTZ 75, requesting special-purpose subzone status for the semiconductor manufacturing plant of SGS-Thomson Microelectronics, Inc. (STM), located in Phoenix, Arizona (Phoenix Customs port of entry area). The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on May 25, 1995.

The STM plant (250,000 sq. ft. plus 250,000 sq. ft. planned on 17 acres) is located at 1000 East Bell Road, Phoenix. The facility (300 employees) is used to produce a range of semiconductor devices. While the plant's primary product line currently involves microprocessors, other products that are or could be made at the facility include application-specific processors, memory chips, flash memories, and other power and signal processing devices. Foreign sourced materials (up to 50% of total) involve primarily gold, adhesives, resins, plastic sheets, and plastic packaging materials. Other materials that may also be purchased from abroad include transformers, capacitors, diodes, transistors, integrated circuits, resistors, printed circuits, switches, wire, fasteners, and other electrical and automatic data processing equipment and components. Some 10 to 15 percent of the finished products are exported.

Zone procedures would exempt STM from payments of Customs duties on foreign materials used in production for export. On domestic sales, the company would be able to choose the duty rates that apply to the finished products (mostly duty-free). The duty rates on foreign-sourced items range from duty-free to 20 percent (with most in the 2.1-

7.4% range). The application indicates that the savings from zone procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is July 31, 1995. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to August 15, 1995).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:
