

considered for exchange under prescribed circumstances; and 1,100 acres of BLM lands that may be available for sale or disposal under other authorized processes. The ARMP also provides criteria for the acquisition of lands, or interests in lands, where such acquisition would meet objectives of the various resource programs. The plan allocates approximately 600 acres as right-of-way exclusion areas and 146,700 acres as right-of-way avoidance areas.

Special Recreation and Visual Resource Management Areas: The ARMP/ROD identifies seven Special Recreation Management Areas (SRMA), including four existing (Loon Lake/East Shore, Dean Creek Elk Viewing, Coos Bay Shorelands, and New River) and three new (Tioga, Gregory Point (Bal'diyaka), and Sixes River). The existing SRMAs total approximately 3,700 acres and the new SRMAs total approximately 25,700 acres. The ARMP/ROD allocates approximately 2,065 acres of BLM-administered lands for 23 existing or potential recreation sites. The plan also allocates lands for 12 existing or potential trails, totaling between 42 and 56 miles. The plan also identifies management objectives for four visual resource management classifications.

Mineral and Energy Resource Management: Most BLM-administered lands will remain available for mineral leasing and location of mining claims, but 1,600 acres will be closed to leasing for oil and gas and geothermal resources, and 12,500 acres will be closed to location of claims.

Dated: June 5, 1995.

Michael R. Crouse.

Acting Coos Bay District Manager.

Notice of Approval of the Maricopa Complex Wilderness Management Plan

AGENCY: Bureau of Land Management, Interior.

ACTION: The Maricopa Complex Wilderness Management Plan is approved. In accordance with 43 CFR part 4, this action is subject to appeal for a period of 30 days from the date of this notice. Barring appeal, the plan will be implemented.

SUMMARY: (1) Scope of the Approved Plan: The plan prescribes actions and policies for the management of four Wilderness Areas: the Sierra Estrella,

the North Maricopa Mountains, South Maricopa Mountains and the Table Top for a period of ten years. An environmental assessment document was prepared describing the impacts of the plan along with three other alternatives.

(2) Geographic Areas Involved: Four separate wilderness areas, totaling 172,100 acres in the Sonoran Desert of Southwestern Arizona, southern Maricopa and western Pinal Counties, and 12 to 45 miles south of the metropolitan Phoenix. Other nearby towns are Gila Bend, Maricopa, Casa Grande, and Buckeye, Arizona.

(3) Summary of Plan Actions: Seventy nine miles of former vehicle ways reclaimed; 16 miles converted to pedestrian and/or equestrian trails. Three access routes may be shortened slightly. Twenty five vehicle barriers constructed. Four new trails and seven trailheads established and one existing trail and trailhead improved and maintained. Signs, defined parking areas, and minimal camping facilities provided at some trailheads. Maps and other information provided. Two vehicle safety shoulders may be created along Interstate 8. Commercial recreation outfitters may be permitted. Six wildlife water catchments and associated fencing modified, and along with two others, maintained. One wildlife well pump replaced. Transplants of desert bighorn sheep and aircraft telemetry following sanctioned. Installation of future wildlife catchments evaluated on a case-by-case basis. Non-mechanized animal damage control allowed. Five earthen livestock water tanks abandoned. Thirteen livestock control fences maintained. No new livestock watering facilities constructed. Coordination with multi-jurisdictional law enforcement and search and rescue agencies and organizations improved. Five thousand seven hundred and sixty two acres of State of Arizona surface and subsurface inholdings identified for acquisition plus some access easements. All wildfire suppressed; protocol for fire suppression activities established. Reduction in low-level civilian aircraft flights encouraged. Thirty three instances of motorized/mechanized use allowed annually over 9 years dropping to 22 per year thereafter, to: maintain 8 livestock fences, modify 6 wildlife catchments, maintain and haul water to these and two other catchments, pump one well for wildlife, census or track wildlife, check wildlife water levels in wildlife catchments, respond to life-threatening emergencies, rescue sick livestock, and pursue felons or major

game violators. Monitoring standards adopted and response actions described.

(4) Proposed Restrictions: Campfires, charcoal fires, wood gathering or wood cutting, and other surface disturbances are prohibited. Dogs are prohibited on one trail; horses on another. Camping within 200 feet or within sight of established trails is prohibited; camping at some trailheads will be limited to a five day period. Pack stock associated with permitted activities confined to naturally hardened areas during long rest periods. Pack stock feed provided by outfitters.

(5) Summary of Alternatives Analyzed: A visitor use and wildlife enhancement alternative with additional hiking and/or riding trails and wildlife developments; a naturalness enhancement alternative without maintained trails, with mostly non-mechanized maintenance of developments, and 15 instances of low level aircraft use occurring yearly for wildlife census, checking water levels of wildlife water catchments and hauling water; and a no action alternative.

(6) Extent of Public Comment: A draft plan with an environmental assessment document was distributed for public review and comment for a 45 day period on September 13, 1994. Availability notice was via the **Federal Register** and local media. More than 400 copies of the draft plan were mailed to a wide spectrum of publics, governing bodies, organizations, and institutions expressing interest or directly affected. Two public meetings, in Gila Bend and Phoenix, Arizona, were held. A total of 14 individuals participated in these meetings and providing comments; eight written comments were also received. Comments were analyzed and appear in the final plan. Some changes were made due to the comments. Most notable are: The addition of a management action to disallow the construction of future livestock watering facilities within the wilderness; the addition of some mechanized wildlife management activities; and changes to the Naturalness Alternative and associated impact analysis.

NEXT STEP IN THE PLANNING PROCESS: The decision to adopt this plan is subject to appeal for a period of 30 days following the publication of this notice. Barring appeal, implementation will follow. Appeals must be filed in accordance with the procedures found in 43 CFR 4.4110 through 4.415.

Colorado; Filing of Plats of Survey

May 26, 1995.

The plats of survey of the following described land are officially filed in the Colorado State Office, Bureau of Land Management, Lakewood, Colorado, effective 10:00 a.m. on May 31, 1995.

The plat representing the dependent resurvey of a portion of the subdivisional lines, certain mineral surveys and the subdivision of certain sections, T. 14 S., R. 100 W., Sixth Principal Meridian, Colorado, Group No. 1000, was accepted April 18, 1995.

The plat representing the dependent resurvey of a portion of the Twelfth Standard Parallel North (south boundary, T. 49 N., R. 10 W.), east and west boundaries, and subdivisional lines and the subdivision of certain sections, T. 48 N., R. 10 W., New Mexico Principal Meridian, Colorado, Group No. 879, was accepted April 5, 1995.

The plat representing the dependent resurvey of the north and east boundaries, portions of the south and west boundaries, subdivisional lines, and certain mineral claims, and the subdivision of sections, T. 46 N., R. 10 E., New Mexico Principal Meridian, Colorado, Group No. 860, was accepted December 29, 1994.

The plat representing the dependent resurvey of the north and west boundaries of lot 1, sections 13, T. 7 N., R. 87 W., Sixth Principal Meridian, Colorado, Group No. 1083, was accepted March 29, 1995.

The plat representing the dependent resurvey of a portion of the east boundary, a portion of the subdivisional lines and mineral survey number 13952, Diamond Placer, T. 19 S., R. 71 W., Sixth Principal Meridian, Colorado, Group No. 996, was accepted March 9, 1995.

The supplemental plat amending the acreage of lots 2, 6, 9 and Tract A and clarifying the bearing and distance of certain claim lines, in section 10, T. 4 S., R. 73 W., Sixth Principal Meridian, Colorado, was accepted April 7, 1995.

The supplemental plat creating new lots 78 and 79 from previous lotting and portions of cancelled Mineral Survey No. 5370, John Welch lode, and amending the acreage of Lot 3 in the N 1/2 of the NE 1/4 of section 20, T. 3 S., R. 73 W., Sixth Principal Meridian, Colorado, was accepted March 17, 1995.

The supplemental plat creating new lots 5, 6 and 7 from previous lotting and areas in section 10, T. 8 N., R. 75 W., Sixth Principal Meridian, Colorado, was accepted March 29, 1995.

The supplemental plat creating new lots 13, 14 and 15 from original lots 3, 7, and 8 in section 21, T. 49 N., R. 11 E., New Mexico Principal Meridian, Colorado, was accepted March 31, 1995.

These surveys were executed to meet certain administrative needs of this Bureau.

The plat representing the limited corrective dependent resurvey of a portion of the subdivisional line between sections 8 and 9, T. 9 N., R. 69 W., Sixth Principal Meridian, Colorado, Group No. 628, was accepted January 20, 1995.

This survey was executed to meet certain administrative needs of the Larimer County Engineering Department, Fort Collins, Colorado.

The plat representing the dependent resurvey of portions of the New Mexico Principal Meridian (east boundary), north boundary, and subdivisional lines, and the subdivision of certain sections, T. 35 N., R. 1 W., New Mexico Principal Meridian, Colorado, Group No. 1043, was accepted April 17, 1995.

The plat representing the dependent resurvey of a portion of the east boundary (west boundary T. 22 S., R. 73 W., Sixth Principal Meridian, Colorado), certain mineral claims, and the metes-and-bounds surveys in section 24, T. 45 N., R. 12 E., New Mexico Principal Meridian, Colorado, Group No. 1059, was accepted March 24, 1995.

The plat representing the dependent resurvey of a portion of the west boundary, a portion of the subdivisional lines and the subdivision of certain sections, T. 34 N., R. 6 W., South of the Ute Line, Sixth Principal Meridian, Colorado, Group No. 1003, was accepted March 8, 1995.

These surveys were executed to meet certain administrative needs of the U.S. Forest Service.

Darryl A. Wilson,

Chief Cadastral for Colorado.

BILLING CODE 4310-JB-P

Fish and Wildlife Service

Receipt of Application(s) for Permit

The following Applicant(s) have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, *et seq.*)

PRT-800897

Applicant: Ms. Cornelia Pasche, Phase One Technologies, L.L.C., Houston, TX.

The Applicant requests a permit amendment to expand the area previously permitted to take the red-cockaded woodpecker (*Picoides borealis*) in Texas, for the purpose of scientific research, recovery actions, and survival of the species as prescribed by Service recovery documents.

ADDRESSES: Written data or comments should be submitted to the Assistant Regional Director, Ecological Services, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103, and must be received by the Assistant Regional Director within 30 days for the date of this publication.

Documents and other information submitted with this application are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to the above office within 30 days of the date of publication of this notice. (See **ADDRESSES** above.)

James A. Young,

Acting Regional Director, Region 2, Albuquerque, New Mexico.
