

The nature of the residue in plants is adequately understood and an adequate analytical method, gas chromatography with a flame photometric detector, is available for enforcement purposes. An analytical method for enforcing this tolerance has been published in the Pesticide Analytical Manual (PAM), Vol. II. No secondary residues in meat, milk, poultry, or eggs are expected since asparagus is not considered a livestock feed commodity. There are presently no actions pending against the continued registration of this chemical.

Based on the above information considered by the Agency the tolerance established by amending 40 CFR 180.204 would protect the public health. Therefore, it is proposed that the tolerance be established as set forth below.

Any person who has registered or submitted an application for registration of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, which contains any of the ingredients listed herein, may request within 30 days after publication of this document in the Federal Register that this rulemaking proposal be referred to an Advisory Committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

A record has been established for this rulemaking under docket number [PP 4E4374/P617] (including any comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Room 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

The official record for this rulemaking, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official rulemaking record which will also include all comments submitted directly in writing. The official rulemaking record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

Under Executive Order 12866 (58 FR 51735, Oct. 4, 1993), the Agency must

determine whether the regulatory action is "significant" and therefore subject to all the requirements of the Executive Order (i.e., Regulatory Impact Analysis, review by the Office of Management and Budget (OMB)). Under section 3(f), the order defines "significant" as those actions likely to lead to a rule (1) having an annual effect on the economy of \$100 million or more, or adversely and materially affecting a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local or tribal governments or communities (also known as "economically significant"); (2) creating serious inconsistency or otherwise interfering with an action taken or planned by another agency; (3) materially altering the budgetary impacts of entitlement, grants, user fees, or loan programs; or (4) raising novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in this Executive Order.

Pursuant to the terms of this Executive Order, EPA has determined that this rule is not "significant" and is therefore not subject to OMB review.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

List of Subjects in 40 CFR Part 180

Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: June 23, 1995

Peter Caulkins,

Acting Director, Registration Division, Office of Pesticide Programs.

Therefore, it is proposed that 40 CFR part 180 be amended as follows:

PART 180—[AMENDED]

1. The authority citation for part 180 continues to read as follows:

Authority: 21 U.S.C. 346a and 371.

2. In § 180.204, paragraph (b) is amended in the table therein by adding and alphabetically inserting a new entry, to read as follows:

§ 180.204 Dimethoate including its oxygen analog; tolerances for residues.

*	*	*	*	*	*
(b) * * *					
Commodity					Parts per million
Asparagus					0.15

BILLING CODE 6560-50-F

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-7138]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Michael K. Buckley, P.E., Chief, Hazard Identification Branch, Mitigation Directorate, 500 C Street, SW., Washington, DC 20472, (202) 646-2756.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base (1% annual chance) flood elevations and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the National Flood Insurance Program. As a result, a regulatory flexibility analysis has not been prepared.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform. This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements. Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq.; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

Source of Flooding and Location	#Depth in feet above ground. *Elevation in feet (NGVD)
GEORGIA	
Cook County (Unincorporated Areas)	
<i>Bear Creek:</i>	
Approximately 1.1 miles downstream of East Sixth Street in the City of Adel	*214
At a point approximately 1,000 feet upstream of the confluence of Giddens Mill Creek	*230
<i>Giddens Mill Creek:</i>	
At confluence with Bear Creek	*230
Approximately 325 feet upstream of Elm Street	*231
Maps available for inspection at the County Commissioner's Office, 212 North Parrish Street, Adel, Georgia.	
Send comments to Ms. Faye Hughes, Cook County Administrator, 212 North Parrish Street, Adel, Georgia 31620.	
NEW YORK	
Kiantone (Town), Chautauqua County	
<i>Stillwater Creek:</i>	

Source of Flooding and Location	#Depth in feet above ground. *Elevation in feet (NGVD)
Approximately 1,880 feet downstream of U.S. Route 62	*1,244
Approximately 1,665 feet upstream of confluence of Widow Bostwick Creek	*1,253
<i>Widow Bostwick Creek:</i>	
At confluence with Stillwater Creek ...	*1,250
At South Main Street extension	*1,315
Maps available for inspection at the Town Hall, 1521 Peck Settlement Road, Jamestown, New York.	
Send comments to Mr. Michael C. Haller, Supervisor of the Town of Kiantone, Town Hall, 1521 Peck Settlement Road, P.O. Box 2076, Station A, Jamestown, New York 14702.	
OHIO	
Payne (Village), Paulding County	
<i>Flatrock Creek:</i>	
At Sitzler Road	*741
Approximately 0.9 mile upstream of Sitzler Road	*743
Maps available for inspection at the Village of Payne Water Plant, 211 North Laura Street, Payne, Ohio.	
Send comments to The Honorable Michael Brigner, Mayor of the Village of Payne, 131 North Main Street, Payne, Ohio 45880.	
WISCONSIN	
Cadott (Village), Chippewa County	
<i>Yellow River:</i>	
At downstream corporate limits	*943
At upstream corporate limits	*967
Maps available for inspection at the Cadott Village Office, 110 Central Street, Cadott, Wisconsin.	
Send comments to Mr. Ken Luebforf, President of the Village of Cadott, P.O. Box 40, Cadott, Wisconsin 54727.	

§ 67.4 [Amended]

3. The tables published under the authority of § 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)	
				Existing	Modified
Delaware	Arden (village), New Castle County.	South Branch, Naaman Creek.	Approximately 2,000 feet upstream of CSX Transportation.	None	*188
			Approximately 1,100 feet upstream of Marsh Road.	None	*270

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet (NGVD)	
				Existing	Modified

Maps available for inspection at the Village Secretary's Office, 2005 Harvey Road, Arden, Delaware.

Send Comments to Ms. Irene O'Connor, Arden Village Secretary, 2005 Harvey Road, Arden, Delaware 19810.

Delaware	Ardentown (village), New Castle County.	South Branch, Naaman Creek.	Approximately 100 feet upstream of CONRAIL.	None	*135

BILLING CODE 6718-03-P-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 95-90; FCC 95-226]

Broadcast Services; Network/Affiliate Rule; Advertising

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: This Notice of Proposed Rulemaking proposes to re-examine the Commission's rules prohibiting a broadcast television licensee from entering into agreements with a network that limits the licensee's ability to alter its advertising rates and from being represented for the sale of advertising by a network with which it is affiliated. This action is needed to determine if the costs of these rules exceed their benefits.

DATES: Comments are due by August 28, 1995, and reply comments are due by September 27, 1995.

ADDRESSES: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Paul Gordon (202-776-1653) or Tracy Waldon (202-739-0769), Mass Media Bureau.

SUPPLEMENTARY INFORMATION: This a synopsis of the Commission's *Notice of Proposed Rule Making* in MM Docket No. 95-90, adopted June 14, 1995 and released June 14, 1995. The complete text of this *NPRM* is available for inspection and copying during normal business hours in the FCC Reference Center (Room 239), 1919 M Street, N.W., Washington, D.C., and also may be purchased from the Commission's copy contractor, International Transcription Service, (202) 857-3800, 2100 M Street, N.W., Suite 140, Washington, DC 20037.

Synopsis of Notice of Proposed Rule Making

1. With this *Notice of Proposed Rule Making (NPRM)*, the Commission continues its reexamination of the rules regulating broadcast television network/affiliate relationships in light of changes in the video marketplace. This *NPRM* takes a fresh look at 47 CFR 73.658 (h) and (i) (the Commission's "network

control of station advertising rates" rule and the "network advertising representation" rule, respectively). Section 73.658(h) prohibits agreements by which a network can influence or control the rates its affiliates set for the sale of their non-network broadcast time, and Section 73.658(i) prohibits broadcast television affiliates that are not owned by their networks from being represented by their networks for the sale of non-network advertising time. Both rules address station relationships with any broadcast television network, *i.e.*, any organization that provides and identical program to be broadcast simultaneously by two or more stations.

2. In reconsidering these rules, our central focus is on whether they continue to effectively serve this Commission's cornerstone interests of promoting diversity and competition. In this *NPRM*, after first reviewing the initial premises for these rules, we will look at the changes in the competitive environment over the years since the rules were adopted, and we will consider the current marketplace in which they operate. We will inquire whether networks would have the capability and the incentive to exercise undue market or bargaining power in the absence of these rules and will examine public interest

3. The network rules governing control of station rates and network advertising representation were originally adopted to protect the ability of affiliates to serve as viable, independent sources of programming, and to foster competition in the provision of advertising. As the Commission stated in 1941, "[c]ompetition between stations in the same community inures to the public good because only by attracting and holding listeners can a broadcast station successfully compete for advertisers. Competition for advertisers[,] which means competition for listeners[,] necessarily results in rivalry between stations to broadcast programs calculated to attract and hold listeners, which necessarily results in the improvement of the quality of their program service. This is the essence of the American system of broadcasting."¹ The Commission still believes, fifty years later, that healthy and vigorously competitive television advertising markets are in the public interest.

4. Having discussed why network influence over national spot advertising rates implicates our public interest

¹ *Report on Chain Broadcasting*, Commission Order No. 37; Docket 5060, at 47, quoting *Spartanburg Advertising Co.*, Docket No. 5451, (January 9, 1940).

concerns, we turn to the practical questions of whether networks, under current market conditions, have the ability to exercise this influence, and whether they would choose to exercise it. The first question asks the degree to which a network could pressure its affiliates to act in a manner that benefits the network, but which may not be in the best interests of either the public or the licensee. The second question asks whether a network, even if it had such power, would have any incentive to exercise it. Finally, we request comment on whether the existing rules effectively perform their functions and whether elimination or modification of the rules would serve the public interest.

5. The public interest may be harmed if networks possess sufficient bargaining power over their affiliates such that exercise of this bargaining power would result in reductions of affiliate advertising revenues significant enough to inhibit the affiliate's ability to present programming that best serves its community. In order to assess whether networks today have a substantial degree of bargaining power with respect to their affiliates, we must define the relevant alternatives available to the two parties. To the extent that an affiliate has alternative opportunities to affiliate with a given network, network bargaining power could be reduced. In the same manner, it is also presumed that the more potential affiliates in a market, the more bargaining power the network will have.

6. We ask parties to comment on whether, and if so the extent to which, the balance of bargaining power has shifted toward affiliates in the years since these advertising rules were promulgated, and what effect the current balance of bargaining power has on our related public interest concerns of diversity and competition.

7. Even if a network has undue bargaining power over its affiliates, it may not have the incentive or ability to exercise that bargaining power to influence national video advertising rates in a way that would harm the public interest. Presumably, a network would find it in its interest to manipulate the national spot advertising rates of its affiliates only if it could earn higher profits by doing so. Whether a network could profit from this activity depends on the availability of other sources of advertising time to which advertisers can turn that are "reasonably interchangeable" with network advertising time. Understanding the goals of advertisers and the role of the national advertising representatives is critical in determining whether national spot advertisements are reasonably
