SUPPLEMENTARY INFORMATION

Overview

VOA is the preeminent authority on the pronunciation of foreign names and places for American media. VOA seeks assistance to complete its interactive, digital audio system to provide its professional staff with fast and accurate pronunciations for international names commonly found in international news. This system provides users with precise visual and audio guidance using a specially-designed international phonetic alphabet and spoken pronunciations by VOA's language experts. The prototype currently in use at VOA uses Foxpro for Windows with a SoundBlaster 16 sound card and runs on a stand-alone IBM compatible computer. With modification, it could run on Macintosh or a network. VOA's current index has 50,000 entries updated daily. The guide provides text references for honorifics, second reference and other useful information. The index can be expanded and tailored for specialized needs.
