

encouraging national or regional planning, coordination, and uniformity.

It may be necessary to apply a combination of options to encompass the wide array of objectives outlined in the NWPAs. This range was discussed above in part III.B.8, Combination of Elements from the Previous Groups.

C. Applicability of Section 180(c) to Private Shipments

Many States, counties, and regional groups urged that the Section 180(c) program should apply to all commercial spent nuclear fuel or defense high-level radioactive waste shipments ultimately destined for a NWPAs facility, whether or not those shipments are transported to and stored on an interim basis at a private facility. Commenters cited that any large-scale shipping campaign of such materials will have virtually the same impact on States and tribes as that envisioned in the NWPAs.

The Department does not currently have the legal authority to implement a program of financial and technical assistance for shipments other than those outlined by the NWPAs. However, the many comments on this issue have been noted.

D. Policy Development Process

A few commenters questioned the Department's plans to issue a Notice of Policy and Procedures rather than establish the program in regulations. They voiced concern that implementation of Section 180(c) through regulations is necessary to ensure stability through changes of leadership within the Department and that an interpretation of policy and procedures is "less robust." An expedited rulemaking process was suggested to accommodate time constraints.

The Department's response to these comments is that development of the Interpretation of Policy and Procedures has followed and will continue to follow Notice and Comment Procedures of the Federal Rulemaking process. At some future date the option of converting Policy and Procedures to a rulemaking may be acted upon. In development, however, it was the Department's intent to remain flexible in order to work through unforeseen problems without rulemaking requirements.

V. Conclusion and Request for Submission

This paper has presented a discussion of options for Section 180(c) policy and procedures. The subjects discussed here should not be viewed as the only potential options for the program.

Comments received on this Notice and continuing research on these options may still identify aspects of the program not discussed here that will be included in the Notice of Proposed Policy and Procedures, which the Department intends to publish in 1996. The purpose of this document has been to share with stakeholders the research to date and request additional comments from interested parties.

The Department solicits comments from the public on all aspects of Section 180(c) implementation.

Common Sense Initiative Council, Iron and Steel Sector Subcommittee Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Common Sense Initiative Council, Iron and Steel Sector Subcommittee; notice of meeting.

SUMMARY: The Environmental Protection Agency established the Common Sense Initiative Council (CSIC)—Iron and Steel Sector Subcommittee (CSIC-ISS) on October 17, 1994, to provide independent advice and counsel to EPA on policy issues associated with the iron and steel industry. The Subcommittee is currently working on projects that the Subcommittee has approved, reviewing work plans for a small number of pending projects, and exploring issues related to the iron and steel industry. The Subcommittee will next meet on Thursday, August 24, 1995.

OPEN MEETING NOTICE: Notice is hereby given that the Environmental Protection Agency is convening an open meeting of the Iron and Steel Sector Subcommittee on Thursday, August 24, 1995 from 8:00 a.m. to 4:00 p.m. central daylight savings time at the Ambassador West Hotel, 1300 N. State Parkway, Chicago, IL 60610. Seating will be available on a first come, first served basis.

The Iron and Steel Subcommittee has created four workgroups which are

responsible for proposing to the full Subcommittee for its review and approval potential activities or projects that the Iron and Steel Sector Subcommittee will undertake, and for carrying out projects once approved. The Subcommittee has approved six projects and their workplans, and is considering two additional projects. Workgroups will be meeting on Wednesday preceding the meeting at the same hotel to discuss further pending projects and to continue working on workplans and implementation of approved projects. The purpose of the Subcommittee meeting will for the Subcommittee to consider the pending projects as well as any proposed changes to approved projects, to make any needed implementation decisions, and to discuss issues relevant to the iron and steel industry.

INSPECTION OF SUBCOMMITTEE

DOCUMENTS: Documents relating to the above topics will be publicly available at the meeting. Thereafter, these documents and the minutes of the meeting will be available for public inspection in room 2417M of EPA Headquarters, 401 M Street SW., Washington, D.C. 20460, telephone number 202-260-7417.

Government Information Locator Service (GILS)

AGENCY: U.S. Environmental Protection Agency.

ACTION: Public notice announcement of second focus group meeting.

SUMMARY: All Federal agencies and departments must create locators (i.e., electronic card catalogues) for their publicly-available information, and must make these locators available in a standard format. The collection of all the Federal agencies' and departments' locators is termed the Government Information Locator Service (GILS), which is more fully described in the Office of Management and Budget Bulletin 95-01, "Establishment of Government Information Locator Service."

The Environmental Protection Agency (EPA) is convening several focus group meetings to confirm and expand our understanding of our customers' needs for a locator to EPA information. The purpose of the meetings is to engage EPA's constituencies in dialogue about their specific requirements for EPA's GILS, so that EPA can better tailor its GILS to fit customer needs.

This second public focus group is designed to include any likely users of EPA's GILS, and any interested parties, except for EPA staff (EPA staff will attend separate sessions). Diverse interest groups and varied perspectives are welcome.

Results of the focus group meetings will be combined with results from internal EPA meetings, and will be used to help set the near- and long-term agenda for development, enhancement, and sustainability of GILS at EPA.

The meeting will take place on Tuesday, July 18, 1995, from 9:00 am to noon at Hall of the States, 444 North Capitol Street NW., Washington, DC. The meeting will be held in Room 333 and there is no cost to participate.

To keep the focus group attendance to a workable size (i.e., one in which voices can be readily heard and thoughts recorded), advance registration is required. To register, please contact one of the following by July 17, and let them know your name, company or affiliation (if any), telephone and fax numbers.
