First Revised Sheet No. 213D

These tariff changes are proposed to become effective on July 10, 1995, the effective date of Order No. 577-A.

On April 4, 1995, the Commission issued a Final Rule in Docket No. RM95-5-000 (Order No. 577), "Release of Firm Capacity on Interstate Natural Gas Pipelines," revising 284.243(h) of the Commission's Regulations pertaining to prearranged capacity releases by: (1) Extending to one (1) full calendar month the exception from posting and bidding requirements and exempting transactions at the maximum rate from posting and bidding requirements and (2) providing a twenty-eight (28) day hiatus maximum rate under the exemption cannot re-release that capacity to the same replacement shipper at less than the maximum rate. Subsequently, on June 8, 1995 the Commission issued an Order Granting Rehearing in Docket No. RM95-5-001 (Order No. 577-A), which revised the April 4 Order by Requiring that "31 days be substituted for "one calendar month".

[Docket No. RP95-128-001]

**East Tennessee Natural Gas Company; Notice of Rate Filing**

July 13, 1995.

Take notice that on July 11, 1995 East Tennessee Natural Gas Company (East Tennessee), filed a request for an extension of time in which to make any credits due from excess revenues received pursuant to its cash out mechanism. East Tennessee requests

permission to make any credits no later than forty-five (45) days subsequent to its affiliate, and principle supplier, Tennessee Gas Pipeline Company (Tennessee) filing its amended first annual cash out report, which is anticipated to be January, 1996.

East Tennessee states that Section 7 of its LMS-MA Rate Schedule requires it to credit any revenues received pursuant to its cash out mechanism in excess of actual costs incurred, within ninety days after each anniversary of the implementation of restructured services. However, East Tennessee states that, due to the fact that Tennessee has not effected a final reconciliation of its cash out mechanism, East Tennessee does not currently have final, accurate information on which to base such credits. Without knowing what it will be charged by Tennessee, East Tennessee can not determine whether it must make any refunds or not. East Tennessee therefore requests an extension and agrees to make any credits found to be due no later than forty-five (45) days subsequent to Tennessee filing its amended cash out report.

Any person desiring to protest with reference to said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Section 211 of the Commission's Rules of Practice and Procedure, 18 CFR 385.211. All such protests should be filed on or before July 20, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to this proceeding. Copies of this filing are on file and available for public inspection.

**Northwest Pipeline Corporation; Notice of Proposed Changes in FERC Gas Tariff**

July 13, 1995.

Take notice that on July 10, 1995, Northwest Pipeline Corporation (Northwest) tendered for filing and acceptance as part of its FERC Gas Tariff, Third Revised Volume No. 1, the following tariff sheets with a proposed effective date of June 26, 1995:

Substitute Fourth Revised Sheet No. 231  
Substitute First Revised Sheet No. 231-A  
Substitute Original Sheet No. 303  
Substitute Original Sheet No. 303-A

Northwest states that the purpose of this filing is to comply with the directives of the Commission's June 23, 1995, Order in Docket No. RP95-145-002 wherein Northwest was directed to

remove all references to sections of its tariff that deal with the volumization of penalty revenue credits and to submit revised tariff sheets to the Commission by July 10, 1995. Specifically, such volumization provisions must be eliminated from Sections 14.12(d)(ii) and 32.2 of Northwest's General Terms and Conditions.

The June 23, 1995, Order also directed Northwest to respond to the intervenors' concerns with proposed Section 32.1(e) of Northwest's tariff. Northwest states that in response to these concerns, Northwest is proposing changes to Section 32.1(e) which serve to more narrowly define the circumstances under which Northwest may choose to sell storage gas inventory. Northwest also states that it is providing a comprehensive explanation of why it is both inappropriate and unreasonable for Northwest to credit revenues from sales of its storage gas inventory to its customers.

Northwest states that a copy of this filing has been served upon Northwest's jurisdictional customers, upon all intervenors in Docket No. RP95-145-000 and upon interested state regulatory commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules of Practice and Procedure. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
