Public Document Room under accession number 9507170370. The NRC will consider comments received from interested parties in the final evaluation of the proposed generic letter supplement. The NRC's final evaluation will include a review of the technical position and, when appropriate, an analysis of the value/impact on licensees. Should this generic letter supplement be issued by the NRC, it will become available for public inspection in the NRC Public Document Room.

**DATES:** Comment period expires August 25, 1995. Comments submitted after this date will be considered if it is practical to do so, but assurance of consideration cannot be given except for comments received on or before this date.
