**Approval and Promulgation of Air Quality Implementation Plans; Designation of Areas for Air Quality Planning Purposes; Redesignation of the Greenbrier County, West Virginia Ozone Nonattainment Area to Attainment and Approval of the Area's Maintenance Plan and Emissions Inventory**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to approve the State Implementation Plan (SIP) revisions submitted by the State of West Virginia for the purpose of establishing a 1990 base year ozone inventory and a maintenance plan for the Greenbrier County ozone nonattainment area. EPA is also proposing to approve the request submitted by the State of West Virginia to redesignate the Greenbrier County area to attainment of the National Ambient Air Quality Standard (NAAQS) for ozone. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP revision and redesignation request as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the Technical Support Document (TSD) that has been prepared by EPA on these rulemaking actions. The TSD is available for public inspection at the EPA Regional office listed in the **ADDRESSES** section of this notice. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. **DATES:** Comments must be received in writing by September 5, 1995. **ADDRESSES:** Written comments on this action should be addressed to Marcia L. Spink, Associate Director, Air Programs, Mailcode 3AT00, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania, 19107. Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air,

**FEDERAL EMERGENCY  
MANAGEMENT AGENCY**

**44 CFR Part 67**

[Docket No. FEMA-7140]

**Proposed Flood Elevation  
Determinations**

**AGENCY:** Federal Emergency  
Management Agency, FEMA.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or  
comments are requested on the  
proposed base (1% annual chance) flood  
elevations and proposed base flood  
elevation modifications for the  
communities listed below. The base  
flood elevations are the basis for the  
floodplain management measures that  
the community is required either to  
adopt or to show evidence of being  
already in effect in order to qualify or  
remain qualified for participation in the  
National Flood Insurance Program  
(NFIP).

**DATES:** The comment period is ninety  
(90) days following the second  
publication of this proposed rule in a  
newspaper of local circulation in each  
community.

**ADDRESSES:** The proposed base flood  
elevations for each community are  
available for inspection at the office of  
the Chief Executive Officer of each  
community. The respective addresses  
are listed in the following table.

**FOR FURTHER INFORMATION CONTACT:**  
Michael K. Buckley, P.E., Chief, Hazard  
Identification Branch, Mitigation  
Directorate, 500 C Street, SW.,  
Washington, DC 20472, (202) 646-2756.

**SUPPLEMENTARY INFORMATION:** The  
Federal Emergency Management Agency  
(FEMA or Agency) proposes to make  
determinations of base flood elevations  
and modified base flood elevations for  
each community listed below, in  
accordance with section 110 of the  
Flood Disaster Protection Act of 1973,  
42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and  
modified base flood elevations, together

with the floodplain management criteria  
required by 44 CFR 60.3, are the  
minimum that are required. They  
should not be construed to mean that  
the community must change any  
existing ordinances that are more  
stringent in their floodplain  
management requirements. The  
community may at any time enact  
stricter requirements of its own, or  
pursuant to policies established by other  
Federal, state or regional entities. These  
proposed elevations are used to meet  
the floodplain management  
requirements of the NFIP and are also  
used to calculate the appropriate flood  
insurance premium rates for new  
buildings built after these elevations are  
made final, and for the contents in these  
buildings.

*National Environmental Policy Act*

This proposed rule is categorically  
excluded from the requirements of 44  
CFR Part 10, Environmental  
Consideration. No environmental  
impact assessment has been prepared.

*Regulatory Flexibility Act*

The Associate Director, Mitigation  
Directorate, certifies that this proposed  
rule is exempt from the requirements of  
the Regulatory Flexibility Act because  
proposed or modified base flood  
elevations are required by the Flood  
Disaster Protection Act of 1973, 42  
U.S.C. 4104, and are required to  
establish and maintain community  
eligibility in the National Flood  
Insurance Program. As a result, a  
regulatory flexibility analysis has not  
been prepared.

*Regulatory Classification*

This proposed rule is not a significant  
regulatory action under the criteria of  
section 3(f) of Executive Order 12866 of  
September 30, 1993, Regulatory  
Planning and Review, 58 FR 51735.

*Executive Order 12612, Federalism*

This proposed rule involves no  
policies that have federalism  
implications under Executive Order  
12612, Federalism, dated October 26,  
1987.

*Executive Order 12778, Civil Justice  
Reform*

This proposed rule meets the  
applicable standards of section 2(b)(2) of  
Executive Order 12778.
