FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 93-259; RM-8341 and RM-8421]

Radio Broadcasting Services; Earle, Pocohantas and Wilson, AR, and Como and New Albany, MS

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: After the *Notice of Proposed Rule Making*, 58 Fed. Reg. 52735, published October 12, 1993, the Commission grants the counterproposal of Broadcasters & Publishers, Inc., licensee of station WWKZ(FM), Channel 278C, New Albany, Mississippi, requesting a change of community to Como, Mississippi, as that community's first local aural transmission service (coordinates N 34, 32, 56 and W 89, 17, and 04. To accommodate this reallocation, it substitutes Channel 234A for Channel 279A at Wilson, Arkansas (coordinates N 35, 29, 46 and W 90, 10, 04). The Commission also allots Channel 280C3 to Earle as that community's first local aural transmission service (coordinates N 35, 15, 20 and W 90, 38, 52, and, to accommodate this allotment, substitutes Channel 281A for Channel 280A at Pocohantas, Arkansas (coordinates N 36, 18, 02 and W 90, 53, 55).

EFFECTIVE DATE: September 18, 1995.

FOR FURTHER INFORMATION CONTACT: Paul R. Gordon, Mass Media Bureau, (202) 776-1653.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Report and Order*, MM Docket No. 93-259,

adopted July 28, 1995, and released August 3, 1995. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 239), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Services, (202) 857-3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Part 73 of title 47 of the Code of Federal Regulations is amended as follows:

PART 73—[AMENDED]

1. The authority citation for part 73 reads as follows:

Authority: Secs. 303, 48 Stat., as amended, 1082; 47 U.S.C. 154, as amended.

§ 73.202 [Amended]

2. Section 73.202(b), the Table of FM Allotments under Mississippi, is amended by removing Channel 278C at New Albany and adding Como, Channel 278C.

3. Section 73.202(b), the Table of FM Allotments under Arkansas, is amended by adding Earle, Channel 280C3; removing Channel 279A and adding Channel 234A at Wilson; and removing Channel 280A and adding Channel 281A at Pocohantas.

Federal Communications Commission.

Andrew J. Rhodes,

Acting Chief, Allocations Branch, Policy and Rules Division, Mass Media Bureau.

BILLING CODE 6712-01-F

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR 2

RIN 1018-AD40

Update of Regional Office Addresses

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The Fish and Wildlife Service (Service) amends the Field Organization regulations. The Service's Boston regional office has relocated to Hadley, Massachusetts, the Atlanta regional office moved from Spring Street to Century Boulevard in Atlanta, and the Portland regional office moved from Multnomah Street to 11th Avenue in Portland.

EFFECTIVE DATE: September 7, 1995.

FOR FURTHER INFORMATION CONTACT: James E. Pinkerton, Policy and Directives Management Staff, 4401 North Fairfax Drive, Room 224, Arlington, Virginia 22203 at (703) 358-1943.

SUPPLEMENTARY INFORMATION: The purpose of this rule is to update three Service regional office addresses. The Service relocated its regional office from Boston to Hadley, Massachusetts in December, 1993. The Service's regional offices in Portland and Atlanta also relocated within these cities in May, 1989 and December, 1993 respectively.

This document was not subject to Office of Management and Budget Review under Executive Order 12866. It has no potential takings implications for private property as defined in Executive Order 12630. This action does not contain any federalism impacts as described in Executive Order 12612. This rule does not contain any information collection requirements which require approval by the Office of Management and Budget under the

Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* Since this rule merely reflects changes made to regional office addresses, impacts on small business entities is nominal, as required by the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This is an agency organization matter that reflects the physical and mailing addresses of our administrative offices in the regions, therefore, proposed rulemaking is not necessary as provided for in 5 U.S.C. 553(b).

National Oceanic and Atmospheric Administration

50 CFR Part 661

[Docket No. 950426116-5116-01; I.D. 080295A]

Ocean Salmon Fisheries Off the Coasts of Washington, Oregon, and California; Adjustment of Coho Salmon Quotas

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Inseason adjustment of quotas.

SUMMARY: NMFS announces inseason increases to the non-treaty and treaty Indian coho salmon ocean fishery quotas north of Cape Falcon, OR. The increase to the non-treaty quota is apportioned between the commercial troll and recreational fisheries and among recreational subareas according to the coho salmon allocation provisions contained in the Fishery Management Plan for the Ocean Salmon Fisheries off Washington, Oregon, and California (FMP).

DATES: Effective at 2400 hours local time, August 3, 1995. Comments must be submitted by August 23, 1995.

ADDRESSES: Comments may be mailed to William Stelle, Jr., Director, Northwest Region, National Marine Fisheries Service, NOAA, 7600 Sand Point Way NE., BIN C15700-Bldg. 1, Seattle, WA 98115-0070. Information relevant to this action has been compiled in aggregate form and is available for public review during business hours at the office of the Director, Northwest Regional, NMFS (Regional Director).

FOR FURTHER INFORMATION CONTACT: William L. Robinson 206-526-6140.

SUPPLEMENTARY INFORMATION: Regulations governing the ocean salmon fisheries at section III.B. of the appendix to 50 CFR part 661, the standards and procedures for inseason changes to annual management measures. Specifically, the Regional Director may adjust management measures inseason provided that any inseason adjustment in management measures is consistent with fishery regimes established by the U.S.-Canada Pacific Salmon Commission, ocean escapement goals, conservation of the salmon resource, any adjudicated Indian fishing rights, and the ocean allocation scheme in the FMP. In addition, all inseason adjustments must be based on consideration of the following factors:

(a) Predicted sizes of salmon runs; (b) harvest quota and hooking mortality limits for the area and total allowable impact limitations if applicable; (c) amount of the recreational, commercial, and treaty Indian catch for each species in the area to date; (d) Amount of recreational, commercial, and treaty Indian fishing effort in the area to date; (e) Estimated average daily catch per fisherman; (f) Predicted fishing effort for the area to the end of the scheduled season; and (g) other factors as appropriate.

The annual management measures for ocean salmon fisheries (60 FR 21746, May 3, 1995), that NMFS may make inseason adjustments to fisheries north of Cape Falcon that are consistent with and complementary to Pacific Fishery Management Council (Council) spawner escapement objectives in the event that management agreements or understandings with Canada warrant reevaluation of the Council's assumptions about prior interceptions (60 FR 21753, 21756).

Annual management measures for the ocean salmon fisheries are recommended to NMFS by the Council under the authority of the framework FMP. During development of the 1995 annual management measures, the Council made certain assumptions regarding the harvest of coho salmon in Canadian fisheries off the West Coast of Vancouver Island (WCVI). These assumptions regarding Canadian harvest are an important factor in developing U.S. harvest quotas, since over one-half of the coho salmon harvested off Canada are of U.S. origin, and, absent interception, would return to U.S. waters. The Council's recommendations for U.S. ocean fisheries for coho salmon north of Cape Falcon were based, in part, on the assumption that Canada would harvest 1.78 million coho off WCVI, consistent with recent years' harvest levels.

Subsequent to the implementation of the U.S. 1995 annual management measures, the Government of Canada announced that it will reduce the Canadian harvest off WCVI to 1.2 million coho salmon for 1995. This reduction in Canadian harvest is expected to return several hundred thousand additional coho salmon to U.S. waters, most of which will return as spawning escapement to U.S. rivers and hatcheries, and some of which will be available for harvest.

The Council provided for the inseason adjustment of the annual management measures, based on revised assumptions for Canadian interceptions, in anticipation of providing some economic relief to ocean salmon
