

Sec. 30, All;  
Sec. 31, All.

The area described contains approximately 1,380 acres.

**SUPPLEMENTARY INFORMATION:** The land is not required for any Federal purposes. The lease is consistent with current Bureau planning for this area and would be in the public interest. The lease when issued would be subject to the following terms, conditions, and reservations:

1. Provisions of the Airport Act of May 24, 1928, and to all applicable regulations of the Secretary of the Interior.

2. A 15-foot wide right-of-way (AA-22287) for a buried communication cable.

3. A road right-of-way (PHX-086772) for a county road.

4. A 50-foot wide right-of-way (AA-21968) for a natural gas pipeline.

**DATES:** Upon publication of this notice in the **Federal Register** the above described lands will be segregated from all forms of appropriation under the public land laws, including the general mining laws, except for lease under the Airport Act of May 24, 1928. The segregative effect will end upon issuance of the lease or 1 year from the date of this publication, whichever occurs first.

For a period of 45 days from the date of publication of this notice in the **Federal Register** interested parties may submit comments regarding the proposed lease of the lands to the District Manager, Yuma District Office, 3150 Winsor Avenue, Yuma, Arizona 85365.

In the absence of any objections, the decision to approve this realty action will become the final determination of the Department of the Interior.

**FOR FURTHER INFORMATION CONTACT:** Realty Specialist Pete Gonzales, Yuma Resource Area, 3150 Winsor Avenue, Yuma, Arizona 85365, telephone (520) 726-6300.

Dated: August 14, 1995.

**Judith I. Reed,**

*District Manager.*

## Fish and Wildlife Service

### Notice of Availability of a Technical/ Agency Draft Recovery Plan for the Yellow-Shouldered Blackbird for Review and Comment

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of document availability.

**SUMMARY:** The U.S. Fish and Wildlife Service announces availability for public review of a technical/agency draft revised recovery plan for the yellow-shouldered blackbird (*Agelaius xanthomus*). At present, the species is restricted to a few localities in southwestern, southern and eastern Puerto Rico, and to Mona and Monito Islands. Nesting yellow-shouldered blackbirds use a variety of habitats: mud flats and salinas, mangrove forests and cays, coastal upland dry forest, palm trees, suburban areas, artificial structures and coastal cliffs. The species is threatened by shiny-cowbird parasitism, habitat destruction and modification, nest predation, parasitism and diseases. The Service solicits review and comments from the public on this draft plan.

**DATES:** Comments on the draft recovery plan must be received on or before October 30, 1995, to receive consideration by the Service.

**ADDRESSES:** Persons wishing to review the draft recovery plan may obtain a copy by contacting Ms. Marelisa Rivera, Caribbean Field Office, P.O. Box 491, Boquerón, Puerto Rico 00622. Comments and materials received are available on request for public inspection, by appointment, during normal business hours at the above address.

**FOR FURTHER INFORMATION CONTACT:** Ms. Marelisa Rivera, Caribbean Field Office, P.O. Box 491, Boquerón, P.R. 00622, Tel. 809-851-7297.

#### SUPPLEMENTARY INFORMATION:

##### Background

Restoring an endangered or threatened animal or plant to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the U.S. Fish and Wildlife Service's endangered species program. To help guide the recovery effort, the Service is working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for conservation of the species, establish them, and estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act of 1973 (Act), as amended (16 U.S.C. 1531 *et seq.*) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. The Service and

other Federal agencies will also take these comments into account in the course of implementing approved recovery plans.

This Technical/Agency Draft is for the yellow-shouldered blackbird, which is endemic to the island of Puerto Rico. This species is endemic to Puerto Rico and Mona Island. In the past, this species was considered abundant and widespread in Puerto Rico. At present, the species is restricted to a few localities in southwestern, southern and eastern Puerto Rico, and to Mona and Monito Islands. A maximum of 500 individuals have been reported from southwestern Puerto Rico. Approximately 400 individuals are known from Mona Island, 20 individuals have been sighted in Salinas, and one individual was sighted in Roosevelt Roads Naval Station. Nesting yellow-shouldered blackbirds use a variety of habitats: mud flats and salinas, mangrove forests and cays, coastal upland dry forest, palm trees, suburban areas, artificial structures and coastal cliffs. The species is threatened by shiny-cowbird parasitism, habitat destruction and modification, nest predation, parasitism and diseases.

#### Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of the plan.

**Authority:** The authority for this action is Section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: August 18, 1995.

**Susan Silander,**

*Acting Field Supervisor.*
