## MERIT SYSTEMS PROTECTION BOARD

### Opportunity to File Amicus Briefs in Cases Involving Possible Furlough of Administrative Law Judges

**AGENCY:** Merit Systems Protection Board.

**ACTION:** The Merit Systems Protection Board is providing an opportunity for interested parties to submit amicus briefs in a number of pending cases filed pursuant to 5 U.S.C. § 7521 and 5 CFR 1201.131.

**SUMMARY:** The Merit Systems Protection Board currently has seven pending complaints filed by separate agencies pursuant to 5 U.S.C. § 7521 and 5 CFR 1201.131. The basic premise of each

complaint is that there is a possibility that Congress may not enact an appropriation or continuing resolution for fiscal year 1996 on or before October 1, 1995, and that the resulting lapse in funding would necessitate the furlough of all agency employees, including administrative law judges. Therefore, the agencies are requesting that the Board make a finding that there is good cause for the imposition of a furlough action against each agency's administrative law judges.

The Board also has a complaint filed by the National Labor Relations Board seeking permission to furlough its administrative law judges. The NLRB states in its filing that it anticipates its fiscal year 1996 budget will be insufficient to cover its present rate of spending, and that the furlough of its administrative law judges will thus be necessary to avoid deficit spending.

The Board has issued orders in each of the eight cases noting that there is a question whether the procedure provided for by 5 U.S.C. § 7521 is intended to cover the situations described in the agencies' complaints. Specifically, the Board has determined that there is a question whether a furlough which seven agencies allege would be necessitated by a lapse in funding caused by the failure of Congress to enact an appropriation or continuing resolution is the type of personnel action to which the protections of 5 U.S.C. § 7521 need be applied. In the case of the NLRB, the Board has determined that there is a question whether a furlough allegedly necessitated by a cut by Congress in the agency's appropriation is an action to which the protections of 5 U.S.C. § 7521 may be applied. In *Horner v. Andrzejewski*, 811 F.2d 571 (Fed. Cir. 1987), which involved furloughs under a similar statute, 5 U.S.C. § 7513, the court recognized that not all furloughs are within the Board's jurisdiction. The court stated that where a furlough action is taken "because an agency has no choice \* \* \* it can reasonably be said that an agency did not 'take an action' covered by Chapter 75." *Id.* at 576.

In considering these questions, the Board is concerned with the possibility that the provisions of the Antideficiency Act (31 U.S.C. §§ 1341, 1350) may be violated by any action the Board might take in declining to authorize an agency the right to furlough administrative law judges due to a lapse in funding caused by the failure to enact appropriation bills or a continuing resolution, or by Congress' failure to fund an agency at current budget levels. The Board is inviting any interested party to submit

amicus briefs addressing these jurisdictional issues.

**DATES:** All briefs submitted in response to this notice shall be filed with the Clerk of the Board on or before September 22, 1995.

**ADDRESSES:** All briefs shall be captioned "Administrative Law Judge Furlough Appeals" and entitled "Amicus Brief." Only one copy of the brief need be submitted. Briefs should be filed with the Office of the Clerk, Merit Systems Protection Board, 1120 Vermont Avenue NW., Washington, DC 20419.

## NUCLEAR REGULATORY COMMISSION

### Tennessee Valley Authority

[Docket No. 50-328]

#### Sequoyah Nuclear Plant Unit 2; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of the Tennessee Valley Authority (the licensee) to withdraw its July 19, 1995, application for proposed amendment to Facility Operating License No. 79 for the Sequoyah Nuclear Plant Unit 2, located in Soddy Daisy, Tennessee.

The proposed amendment would have revised the technical specification surveillance requirements and bases to incorporate alternate steam generator tube plugging criteria at tube support plate intersections. The approach was similar to guidance given in Generic Letter 95-05, "Voltage-Based Repair Criteria for Westinghouse Steam Generator Tubes Affected by Outside Diameter Stress Corrosion Cracking."

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the Federal Register on August 1, 1995 (60 FR 39189). However, by letter dated

September 7, 1995, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated July 19, 1995, and the licensee's letter dated September 7, 1995, which withdrew the application for license amendment.

The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Chattanooga-Hamilton County Library, 1001 Broad Street, Chattanooga, Tennessee.

Dated at Rockville, Maryland, this 11th day of September 1995.

For the Nuclear Regulatory Commission.
