

period of price controls. The share of ratio of the funds which each state will receive is contained in Exhibit H of the Stripper Well Settlement Agreement. When disbursed, these funds will be subject to the same limitations and reporting requirements as all other crude oil monies received by the states under the Stripper Well Agreement.

It Is Therefore Ordered That

The refund amounts remitted to the Department of Energy by Malcolm M. Turner, Revere Petroleum Corporation, Granite Petroleum Corporation, and Dalco Petroleum Corporation pursuant to their respective settlement agreements or judgments will be distributed in accordance with the foregoing Decision.

[FE Docket Nos. 95-60-NG, 95-61-NG]

Phibro Inc.; Order Granting Blanket Authorization To Import and Export Natural Gas, Including Liquefied Natural Gas, From and To Canada and Mexico

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of order.

SUMMARY: The Office of Fossil Energy of the Department of Energy gives notice that it has issued an order granting Phibro Inc. (Phibro) authorization to import up to 200 billion cubic feet (Bcf) of Canadian natural gas, including liquefied natural gas (LNG) and to import up to 200 Bcf of Mexican natural gas. Phibro is also authorized to export up to 200 Bcf of natural gas to Canada and to export up to 200 Bcf of natural gas to Mexico. Phibro's authorization is for a two-year term beginning on the date of first delivery of imported natural gas or LNG, or exported natural gas.

This order is available for inspection and copying in the Office of Fuels Programs Docket Room, 3F-056, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C. 20585, (202) 586-9478. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C., September 11, 1995.

Clifford P. Tomaszewski,

Director, Office of Natural Gas, Office of Fuels Programs, Office of Fossil Energy.

BILLING CODE 6450-01-P

Western Area Power Administration

Pacific Northwest-Pacific Southwest Intertie Project Transmission Service, Phoenix Area

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of sale of additional capacity on the Pacific Northwest-Pacific Southwest Intertie Project.

SUMMARY: The Western Area Power Administration (Western) is requesting comments on the proposed sale of firm transmission service available as a result of the completion of construction of the Mead-Phoenix and Mead-Adelanto Transmission Projects which are a part of the Pacific Northwest-Pacific Southwest Intertie Project (AC Intertie).

DATE: Comments from all interested parties will be accepted until October 19, 1995.

FOR FURTHER INFORMATION CONTACT: Mr. J. Tyler Carlson, Area Manager, Phoenix Area Office, Western Area Power Administration, P.O. Box 6457, Phoenix, AZ 85005-6457, Telephone: (602) 352-2521, Facsimile: (602) 352-2630.

SUPPLEMENTARY INFORMATION:

Background

The Mead-Phoenix Project (MPP) is an electrical transmission system that consists of 256 miles of 500-kV alternating current, convertible to direct current, transmission line constructed from the Perkins Switchyard, located next to Westwing Substation, northwest of Phoenix, Arizona; through Mead Substation, located south of Boulder City, Nevada; and on to Marketplace Switching Station. Mead-Adelanto Project (MAP) is an electrical transmission system that consists of 202 miles of 500-kV AC transmission line from Marketplace Substation to Adelanto Switching Station in southern California. The 500-kV Marketplace Switching Station will be constructed adjacent to and interconnected with the existing McCullough Switching Station in southern Nevada. As part of the MPP, a 1300 megavolt-ampere (MVA), 500/230-kV transformer will be added to the Mead Substation. Western will have approximately 525 MW of capacity entitlement on this transformer.

Marketing Issues

Western is requesting comments on the proposed sale of additional capacity in the AC Intertie created by the completion and availability of MPP and MAP. The quantity of marketable capacity will be limited by Western's entitlement to the available capacity. The additional capacity on the AC Intertie is anticipated to be available as of January 1, 1996. Western's contracted firm transmission service will begin after the MPP and MAP are released for commercial service.

Marketing Criteria

Western will be marketing the capacity from MPP and MAP by line segments in each direction. The following priority method will be used in selecting allottees for this additional capacity and will be based on requests for usage of each line segment as follows:

1. Perkins to Mead, Mead to Marketplace or Marketplace to Adelanto
 - (a) Both directions, same amount
 - (b) Both directions, different amounts
 - (c) one direction only
2. Perkins to Marketplace or Mead to Adelanto
 - (a) Both directions, same amount
 - (b) Both directions, different amounts
 - (c) one direction only
3. Perkins to Adelanto
 - (a) Both directions, same amount
 - (b) Both directions, different amounts
 - (c) one direction only.
