BILLING CODE 6820-33-P

**Procurement List; Proposed Additions**

**AGENCY:** Committee for Purchase From People Who Are Blind or Severely Disabled.

**ACTION:** Proposed additions to Procurement List.

**SUMMARY:** The Committee has received proposals to add to the Procurement List a commodity and a service to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

**COMMENTS MUST BE RECEIVED ON OR BEFORE:** October 30, 1995.

**ADDRESSES:** Committee for Purchase From People Who Are Blind or Severely Disabled, Crystal Square 3, Suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202-3461.

**FOR FURTHER INFORMATION CONTACT:** Beverly Milkman (703) 603-7740.

**SUPPLEMENTARY INFORMATION:** This notice is published pursuant to 41 U.S.C. 47(a) (2) and 41 CFR 51-2.3. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

If the Committee approves the proposed additions, all entities of the Federal Government (except as otherwise indicated) will be required to procure the commodity and service listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodity and service to the Government.

2. The action will result in authorizing small entities to furnish the commodity and service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodity and service proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

The following commodity and service have been proposed for addition to Procurement List for production by the nonprofit agencies listed:

## DEPARTMENT OF DEFENSE

### Department of the Army

#### Corps of Engineers

#### **Intent to Prepare a Draft Environmental Impact Statement (DEIS) for Future 404 Permit Actions on the Santa Clara River and its Tributaries, Los Angeles County, California**

**AGENCY:** U.S. Army Corps of Engineers DOD.

**ACTION:** Notice of intent.

**SUMMARY:** The Corps will prepare a Draft Environmental Impact Statement (DEIS) for a Proposed General Permit on future 404 permit activities associated with the phased development of the Valencia Master Plan along a portion of the Santa Clara River and its tributaries, Los Angeles County, California. The proposed 404 decision(s) are associated with proposed flood control and transportation projects related to residential, commercial and industrial development on lands owned by Valencia Company. The EIS will

address project-specific impacts, indirect and cumulative impacts, and a range of alternatives. Information in the EIS will be used in the decision whether to issue a 404 permit or series of permits for future flood control improvements, bridges, drainage facilities, and other actions associated with the continual development of the region. The draft EIS is currently scheduled for public review in early 1996.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Bruce Henderson, Regulatory Branch, CESPL-CO-R, Permit Number 94-504-BH, U.S. Army Corps of Engineers, Los Angeles District—300 North Los Angeles Street, Los Angeles, CA 90012. Copies of the Special Scoping Notice dated March 16, 1994 may be obtained by calling (213) 894-5606 and indicating that you are requesting a copy of the Valencia Special Scoping Notice, and leaving your name, address (or fax number), and phone number. Additional documents relative to the project may be reviewed by contacting the Los Angeles District (address above); the Ventura Field Office of the Corps of Engineers 2151, Alessandro Drive, Suite 255, Ventura CA 93001, (805) 641-1127; or Mr. Mark Subbotin, Valencia Company, 23823 Valencia Company, 23823 Valencia Blvd., Valencia, CA 91335, (805) 255-4069.

**SUPPLEMENTARY INFORMATION:**

**Previous Notices**

A Notice of Intent (NOI) for a previous version of this project was issued Oct. 10, 1990. The DEIS was not completed. Since 1990 Valencia Company has: (1) Completed hydrologic studies which resulted in revisions to the proposed flood control improvements; and (2) explored the use of a general permit and Environmental Assessment/Finding of No Significant Impact (EA/FONSI) for the proposed project.

A Special Scoping Notice to consider a General Permit for the project was issued by the Los Angeles District Corps of Engineers on March 16, 1994 (See below to obtain copies.) Comments were received, responded to by the applicant, and reviewed by the Corps. The Corps determined that an EIS should be prepared because: (1) Potentially significant individual and cumulative impacts to wetlands, riparian habitat, and endangered species resources along portions of the river might occur; (2) there is a need to evaluate cumulative impacts to such resources from other discharges in the vicinity; and (3) other permit processes in the watershed have generated impacts to the biological community. The Corps further

determined that it was premature to make a decision regarding whether a General Permit was the appropriate form of permit for this project. This determination was based on the fact that it appeared that the proposed project, with mitigation, could not meet the "minimal impacts" requirement for a General Permit.

**Study Area**

The project area includes 2.0 linear miles of the South Fork of the Santa Clara River, the mouth of Bouquet Creek, 2.5 linear miles of San Francisquito Creek, 7.6 linear miles of the mainstream of the Santa Clara River and jurisdictional tributaries from near the Los Angeles Aqueduct crossing to the Castaic Creek confluence.

**Proposed Action**

The proposed action is the issuance of a Clean Water Act Section 404 permit or set of permits to Valencia Company that would authorize numerous flood control and drainage facilities, and bridges over a 15 to 20 year period. These public works projects will be associated with various residential, commercial, industrial, and recreational developments. Most of the proposed development projects would be carried out by Valencia Company; however, several of the identified projects may be constructed by others, using the proposed permit issued to Valencia Company. If a general permit is issued, it would apply to other applicants in addition to Valencia Company.

Valencia Company is currently planning and constructing various component projects of the Valencia Master Plan along portions of the Santa Clara River and its tributaries. Certain projects along the river and its tributaries will result in excavation and/or the discharge of dredged or fill material into waters of the United States ("waters") as defined in 33 CFR 320-330 under provisions of Section 404 of the Clean Water Act. These activities require a Department of the Army permit. Projects resulting in excavation and/or discharges include channel bank protection for flood control, drainage structures, bridges, fill, mitigation or other encroachment into the Santa Clara River and its tributaries.

The proposed action to be addressed in the EIS has been substantially revised since the 1990 NOI, but is essentially the same as that described as the "Natural River Management Concept" in the 1994 Special Scoping Notice. This concept includes the following elements: (1) Channel bank protection will be placed only where necessary; (2) bank protection will be placed such that
