1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401-7671q.

Subpart T—Louisiana

2. Section 52.975 is amended by adding paragraph (c) to read as follows:

§ 52.975 Redesignations and maintenance plans: Ozone.

* * * * *

(c) Approval—The Louisiana Department of Environmental Quality (LDEQ) submitted a redesignation request and maintenance plan for the New Orleans CMSA on April 23, 1993.

The EPA deemed this request complete on September 10, 1993. Several approvability issues existed, however. The LDEQ addressed these approvability issues in a supplemental ozone redesignation request and revised maintenance plan. This supplemental submittal was received on October 14, 1994. The redesignation request and maintenance plans meet the redesignation requirements in section 107(d)(3)(E) of the Act as amended in 1990. The redesignation meets the Federal requirements of section 182(a)(1) of the Clean Air Act as a revision to the Louisiana ozone State Implementation Plan for Jefferson, Orleans, St. Bernard, and St. Charles

Parishes. The EPA therefore approved the request for redesignation to attainment with respect to ozone for Jefferson, Orleans, St. Bernard, and St. Charles Parishes on December 1, 1995.

PART 81—[AMENDED]

1. The authority citation for part 81 continues to read as follows:

Designation of Areas for Air Quality Planning Purposes; Correction of Designation of Nonclassified Ozone Nonattainment Areas; State of Michigan: Withdrawal of Direct Final Action

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final action.

SUMMARY: On August 8, 1995, the EPA published a proposed rule (60 FR 40338) and a direct final rule (60 FR 40297) announcing the USEPA decision to correct the ozone designations for the Allegan County, Barry County, Battle Creek (Calhoun County), Benton Harbor (Berrien County), Branch County, Cass County, Gratiot County, Hillsdale County, Huron County, Ionia County, Jackson (Jackson County), Kalamazoo (Kalamazoo County), Lapeer County,

Lenawee County, Montcalm (Montcalm County), Sanilac County, Shiawassee County, St. Joseph County, Tuscola County, and Van Buren County nonattainment nonclassified/incomplete data areas and the Lansing-East Lansing (Clinton County, Eaton County, and Ingham County) nonattainment nonclassified/transitional area pursuant to section 110(k)(6) of the Clean Air Act. The EPA is withdrawing the final rule due to adverse comments and will summarize and address all public comments received in a subsequent final rule (based upon the proposed rule cited above).

EFFECTIVE DATE: This withdrawal of the direct final action will be effective October 2, 1995.

ADDRESSES: Copies of the documents relevant to this action are available for public inspection during normal business hours at the following location: U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois, 60604.

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA-7627]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Final rule.

SUMMARY: This rule identifies communities, where the sale of flood insurance has been authorized under the National Flood Insurance Program

(NFIP), that are suspended on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will be withdrawn by publication in the Federal Register.

EFFECTIVE DATES: The effective date of each community's suspension is the third date ("Susp.") listed in the third column of the following tables.

ADDRESSES: If you wish to determine whether a particular community was suspended on the suspension date, contact the appropriate FEMA Regional Office or the NFIP servicing contractor.

FOR FURTHER INFORMATION CONTACT: Robert F. Shea Jr., Division Director, Program Implementation Division, Mitigation Directorate, 500 C Street, SW., Room 417, Washington, DC 20472, (202) 646-3619.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase flood insurance which is generally not otherwise available. In return, communities agree to adopt and administer local floodplain management aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits flood insurance coverage as authorized under the National Flood Insurance Program, 42 U.S.C. 4001 et seq., unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this document no longer meet that statutory requirement for compliance with program regulations, 44 CFR part 59 et seq. Accordingly, the communities will be suspended on the effective date in the third column. As of that date, flood insurance will no longer be available in the community. However, some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities

will not be suspended and will continue their eligibility for the sale of insurance. A notice withdrawing the suspension of the communities will be published in the Federal Register.

In addition, the Federal Emergency Management Agency has identified the special flood hazard areas in these communities by publishing a Flood Insurance Rate Map (FIRM). The date of the FIRM if one has been published, is indicated in the fourth column of the table. No direct Federal financial assistance (except assistance pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act not in connection with a flood) may legally be provided for construction or acquisition of buildings in the identified special flood hazard area of communities not participating in the NFIP and identified for more than a year, on the Federal Emergency Management Agency's initial flood insurance map of the community as having flood-prone areas (section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column.

The Deputy Associate Director finds that notice and public comment under 5 U.S.C. 553(b) are impracticable and unnecessary because communities listed in this final rule have been adequately notified.

Each community receives a 6-month, 90-day, and 30-day notification addressed to the Chief Executive Officer that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. Since these notifications have been made, this final rule may take effect within less than 30 days.

National Environmental Policy Act

This rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Considerations. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Deputy Associate Director has determined that this rule is exempt from the requirements of the Regulatory

Flexibility Act because the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed no longer comply with the statutory requirements, and after the effective date, flood insurance will no longer be available in the communities unless they take remedial action.

Regulatory Classification

This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Paperwork Reduction Act

This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 et seq.

Executive Order 12612, Federalism

This rule involves no policies that have federalism implications under Executive Order 12612, Federalism, October 26, 1987, 3 CFR, 1987 Comp., p. 252.

Executive Order 12778, Civil Justice Reform

This rule meets the applicable standards of section 2(b)(2) of Executive Order 12778, October 25, 1991, 56 FR 55195, 3 CFR, 1991 Comp., p. 309.

[CC Docket No. 93-157, FCC 95-280]

Reports of Communications Common Carriers and Certain Affiliates; Filing Requirements for International Circuit Status Reports

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission adopted a Report and Order that will reduce the regulatory burden on facilities-based international carriers. The Commission's decision will reduce the filing frequency for international circuit status reports from monthly to annually and will require all facilities-based international common carriers to file such reports to assure that the Commission has available industry-wide international circuit use data. This decision also exempts nondominant facilities-based carriers from filing circuit addition reports. The Commission's decision also will reduce the filing frequency for international circuit addition reports for resellers of international private lines from semi-annually to annually. The Commission stated that the information compiled from these reports will provide valuable information to current industry members, potential new entrants into the industry, and the Commission. In addition, the information will allow the Commission to comply with the Omnibus Budget Reconciliation Act of 1993 that requires it to collect annual regulatory fees on active equivalent 64

Kilobits per second (Kb/s) international circuits. In its decision, the Commission has: codified in the Commission's Rules requirements for the filing of international circuit status reports; reduced the frequency of filing such reports from monthly to annually; required all facilities-based international common carriers to file such reports; exempted nondominant facilities-based carriers from filing semi-annual circuit addition reports; reduced the frequency of filing by resellers of international private lines of the circuit addition reports from semi-annually to annually; provided for the preparation of a filing manual with reporting instructions; directed a format to be specified for the filing of those reports; and required the filing of such reports on computer diskettes.

EFFECTIVE DATE: December 29, 1995.

Paperwork Reduction Act

The final rule imposes reporting requirements on additional entities. We recognize that the implementation of any such requirements will be subject to review of the Office of Management and Budget (OMB). Upon receipt of comments on the manual, we will submit the final version of the filing manual to the OMB for review and approval.

Synopsis of Report and Order

On July 2, 1993, the Commission adopted a Notice of Proposed Rulemaking (NPRM) to consider possible rule changes that would reflect the reductions and streamlining of regulatory requirements that have occurred since the early 1970s (58 FR 42992 (August 12, 1993)). In the NPRM, the Commission sought comments on proposals that would reduce the filing frequency of circuit status reports. The Commission has found that these reports provide information that is useful in discharging its obligation to authorize the construction and use of international common carrier transmission facilities, but it no longer required that this information be filed monthly. Therefore, it proposed to require the filing of circuit status reports on an annual rather than a monthly basis.

On August 9, 1995, the Commission released its Report and Order (10 FCC Rcd 8605 (1995)) adopting the proposals contained in the NPRM. The Commission codified its rules to require the filing of international circuit status reports. This will inform all international carriers of the requirement. The information contained in the reports will be useful to current industry members, potential new entrants into the industry, and the Commission because this information is not available from any other reliable source. Since the Commission initiated the NPRM, Congress adopted the Omnibus Budget Reconciliation Act of 1993 (Budget Act) which requires the Commission to collect annual fees for active 64 Kb/s circuits. The annual circuit status reports will serve as a database for verifying and monitoring the payment of these fees.

The Commission also adopted its proposal to reduce the frequency of filing circuit status reports from monthly to annually. The Commission required the reports to be filed on or before March 31 of each year and provide the circuit status information as of December 31 of the immediately preceding year. The Commission required all facilities-based
