

certain disabled individuals who have exhausted other entitlement for the 12 months beginning January 1, 1996 is \$289.

The monthly premium for those individuals entitled to a 35 percent reduction in the monthly premium for the 12-month period beginning January 1, 1996 is \$188.

III. Statement of Actuarial Assumptions and Bases Employed in Determining the Monthly Premium Rate

As discussed in section I of this notice, the monthly Medicare Part A premium for 1996 is equal to the estimated monthly actuarial rate for 1996 rounded to the nearest multiple of \$1. The monthly actuarial rate is defined to be one-twelfth of the average per capita amount that the Secretary estimates will be paid from the Federal Hospital Insurance Trust Fund for services performed and related administrative costs incurred in 1996 for individuals age 65 and over who will be entitled to benefits under the hospital insurance program. Thus, the number of individuals age 65 and over who will be entitled to hospital insurance benefits and the costs incurred on behalf of these beneficiaries must be projected to determine the premium rate.

The principal steps involved in projecting the future costs of the hospital insurance program are (a) establishing the present cost of services furnished to beneficiaries, by type of service, to serve as a projection base; (b) projecting increases in payment amounts for each of the various service types; and (c) projecting increases in administrative costs. Establishing historical Medicare Part A enrollment and projecting future enrollment, by type of beneficiary, is part of this process.

We have completed all of the above steps, basing our projections for 1996 on (a) current historical data and (b) projection assumptions under current law from the Midsession Review of the President's Fiscal Year 1996 Budget. It is estimated that in calendar year 1996, 32.496 million people age 65 and over will be entitled to Medicare Part A benefits (without premium payment), and that these individuals will, in 1996, incur \$112.688 billion of benefits for services performed and related administrative costs. Thus, the estimated monthly average per capita amount is \$288.98 and the monthly premium is \$289. The monthly premium for those individuals eligible to pay this premium reduced by 35 percent is \$188.

IV. Costs to Beneficiaries

The 1996 Medicare Part A premium is about 11 percent higher than the \$261 monthly premium amount for the 12-month period beginning January 1, 1995.

We estimate that there will be, in calendar year 1996, approximately 304,000 enrollees who will voluntarily enroll in Medicare Part A by paying the full premium and who do not otherwise meet the requirements for entitlement. An additional 5,000 enrollees will be paying the reduced premium. The estimated overall effect of the changes in the premium will be a cost to these voluntary enrollees of about \$100 million.
