[Docket No. RP95-422-001]

Great Lakes Gas Transmission Limited Partnership; Notice of Transporter's Use Compliance Filing

October 24, 1995.

Take notice that on September 21, 1995, Great Lakes Gas Transmission Limited Partnership (Great Lakes), filed with the Federal Energy Regulatory Commission (Commission) an original and six copies of its detailed workpapers supporting its monthly Transporter's Use percentage for October, 1995, in compliance with the Commission's September 15, 1995, Order on Compliance Filing in Docket No. RP95-422-000.

Great Lakes stated in its filing that the rolling-in of the Transporter's Use requirements of incremental shippers with that of the non-incremental shippers did result in a substantial net reduction in the Transporter's Use requirements for non-incremental shippers. Great Lakes stated that the workpapers show that for the month of October, 1995, Great Lakes did reflect

the fuel savings resulting from the roll-in of the expansion facilities.

Great Lakes also noted in its filing that the maximum Transporter's Use percentages set out in the tariff sheets are not the percentages actually used for determining the monthly requirements of its shippers. The actual Transporter's Use percentage required to be provided by the shippers is determined in accordance with the percentages posted on the electronic bulletin board every month in accordance with Section 4.3 of the General Terms and Conditions. These amounts are within the maximum and minimum shown on the tariff sheets, thus no adjustment to the tariff sheet maximum percentages is required to roll-in these savings.

Great Lakes states that a copy of the filing and attached workpapers were served on all parties on the Official Service List maintained by the Secretary in these proceedings.

All parties to the proceedings in Docket No. RP95-422-000, *et al.* are automatically parties to this proceeding. Any other person desiring to be heard or to make any protest with reference to said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Sections 211 and 214 of the Commission's Rules of Practice and Procedure, 18 CFR 385.211 and 385.214. All such petitions or protests should be filed on or before November 1, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to this proceeding. Any persons wishing to become a party must file a petition to intervene. Copies of this filing are on file and available for public inspection in the public inspection room. Pursuant to Rule 602.

[Docket Nos. CP66-111-003 and CP96-26-000]

Great Lakes Gas Transmission Limited Partnership; Notice of Application

October 24, 1995.

Take notice that, on October 17, 1995, Great Lakes Gas Transmission Limited Partnership (Great Lakes), One Woodward Avenue, Suite 1600, Detroit, Michigan 48226, filed an application in Docket No. CP66-111-003, pursuant to § 153.10 through § 153.12 of the Commission's Regulations and

Executive Order No. 10485 (as amended by Executive Order No. 12038 and Secretary of Energy Delegation Order No. 0204-112), to amend its Presidential Permit, and in Docket No. CP96-26-000, for authorization under Section 3 of the Natural Gas Act to construct, connect, operate, and maintain 1,500 feet of 36-inch loop pipeline at the U.S.-Canadian international boundary adjacent to St. Clair County, Michigan, at an approximate cost of \$3.9 million, all as more fully set forth in the application that is on file with the Commission and open to public inspection.

Great Lakes' loop pipeline is proposed to begin at its milepost 972.92 and terminate at the U.S.-Canadian international boundary, at the midpoint of the St. Clair River, where Great Lakes' loop pipeline will interconnect with facilities to be owned and operated by TransCanada Pipeline Limited (TransCanada). Great Lakes also proposes a November 1, 1996 in-service date for its proposed loop pipeline.

Great Lakes states that the proposed facilities will be used to provide 50,000 Mcf/day of winter firm transportation service for TransCanada, pursuant to Great Lakes' Rate Schedule FT. Great Lakes further states that its proposed facilities, along with the additional facilities TransCanada will build on its own system, will provide TransCanada with additional reliability and security for its existing facilities crossing the St. Clair River.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before November 14, 1995, file with the Federal Energy Regulatory Commission, Washington, DC, 20426, a motion to intervene or protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or § 385.211) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to the proceeding, or to participate as a party in any hearing therein, must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 3 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the
