

required to submit current information, as listed below:

1. Name
 2. Business Address
 3. Geographic area in which the applicant wishes to conduct foreclosures. (List only States or areas in States in which the applicant is a resident or is duly authorized to transact business.)
 4. If the applicant is not a natural person, the names and business addresses of the people who would actually perform the commissioner's duties.
 5. Description of the applicant's experience in conducting mortgage foreclosures or in related activities which would qualify the applicant to serve as a foreclosure commissioner.
 6. Evidence of the applicant's financial responsibility.
- In place of the above information, any party that has been designated as a foreclosure commissioner for HUD-held multifamily mortgages would be

permitted to submit a letter requesting designation as a foreclosure commissioner for single family mortgages.

(3) description of the need for the information and its proposed use:
The requested information is needed for HUD's selection of foreclosure commissioners who will satisfy the statutory requirements to be "responsible, financially sound, and competent to conduct a foreclosure." The Department is not providing any assurances of confidentiality.

Under the Act, HUD will be able to foreclose on HUD-held Single Family mortgages in about two months instead of the much longer periods—ranging up to two years—currently required under many State laws. The current long periods lead to increased holding costs and vandalism on the properties securing the loans. HUD holds thousands of loans that are ripe for foreclosure.

In view of the substantial economies to be provided by the Act, emergency approval is requested in order to appoint commissioners as soon as the Rule is in effect rather than waiting until the routine clearance process could be completed.

(4) description of the likely respondents, including the estimated number of likely respondents, and proposed frequency of response to the collection of information:

Respondents will be entities with experience in real estate foreclosure procedures. Over a three year period, the estimated number of respondents is approximately 250 in the first year and 50 each year thereafter. The estimated frequency of responses over a three year period is once per HUD region, with very few respondents expected to apply to more than one HUD region.

(5) estimate of the total reporting and recordkeeping burden that will result from the collection of information:

| Reporting burden | First year | Each follow- ing year |
|--|---------------|--------------------------|
| Number of respondents | 250 | 50 |
| Total burden hours (@ 0.5 hour per response) | 125 | 25 |
| Total Estimated Burden Hours | 175 (3 years) | |
