#### **Documents Containing Reporting or Recordkeeping Requirements; Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review**

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR Part 36, Licenses and Radiation Safety Requirements for Irradiators.
2. Current OMB Approval Number: 3150-0158.
3. How often the collection is required: There is a one-time submittal of information to receive a license. Once a specific license has been issued, there is a 5-year resubmittal of the information for renewal of the license. In addition, recordkeeping must be performed on an on-going basis, and reports of accidents and other abnormal events must be reported on an as-necessary basis.
4. Who is required or asked to report: All irradiators licensed by NRC or an Agreement State.
5. The number of annual respondents: 60 NRC licensees and 120 Agreement State licensees.
6. The number of hours needed annually to complete the requirement or request: 84,030 (approximately 467 per licensee).
7. Abstract: 10 CFR Part 36 contains requirements for the issuance of a license authorizing the use of sealed sources containing radioactive materials in irradiators used to irradiate objects or materials for a variety of purposes in research, industry, and other fields. The subparts cover specific requirements for obtaining a license or license exemption; design and performance criteria for irradiators; and radiation safety requirements for operating irradiators, including requirements for operator training, written personnel and emergency procedures, personnel monitoring, radiation surveys, inspection, and maintenance. Part 36 also contains the recordkeeping and reporting requirements that are necessary to ensure that the irradiator is being safely operated so that it poses no danger to the health and safety of the general public and the irradiator employees.

Submit, by January 30, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
