BILLING CODE 6717-01-M

Office of Energy Research

Health and Environmental Research Advisory Committee; Renewal

AGENCY: Department of Energy.
ACTION: Notice of renewal.

SUMMARY: Pursuant to Section 14(a)(2)(A) of the Federal Advisory Committee Act, and in accordance with title 41 of the Code of Federal Regulations, section 101-6.1015(a), and following consultation with the Committee Management Secretariat, General Services Administration, notice is hereby given that the Health and Environmental Research Advisory Committee has been renewed for a two-year period beginning in November 1995. The Committee will provide advice to the Director, Office of Energy Research, on the Biological and Environmental Research Program managed by the Office of Health and Environmental Research.

The renewal of the Health and Environmental Research Advisory Committee has been determined to be essential to the conduct of the Department of Energy business and to be in the public interest in connection with the performance of duties imposed upon the Department of Energy by law. The Committee will operate in accordance with the provisions of the Federal Advisory Committee Act, the Department of Energy Organization Act (Public Law 95-91), and rules and regulations issued in implementation of those Acts.

Further information regarding this Advisory Committee can be obtained from Mrs. Rachel Murphy Samuel at (202) 586-3279.

Issued in Washington, D.C. on November 22, 1995.

JoAnne Whitman,
Deputy Advisory Committee Management Officer.

BILLING CODE 6450-01-M

Energy Research Financial Assistance Program Notice 96-04; Energy Biosciences

AGENCY: Department of Energy (DOE).
ACTION: Notice inviting grant preapplications.

SUMMARY: The Office of Basic Energy Sciences of the Office of Energy Research (ER), U.S. Department of Energy (DOE) invites preapplications from potential applicants for research funding in the Energy Biosciences program area. The intent in asking for a preapplication is to save the time and effort of applicants in preparing and submitting a formal project application that may be inappropriate for the program. The preapplication should consist of a two- to three-page concept paper on the research contemplated for an application to the Energy Biosciences program. The concept paper should focus on the scientific objectives and significance of the planned research, and include an outline of the approaches planned, and any other information relating to the planned research. No budget information or biographical data need be included; nor is an institutional endorsement necessary. The preapplication gives us the opportunity to advise potential applicants on the suitability of their research ideas to the mission of the DOE Energy Biosciences program. A response indicating the appropriateness of submitting a formal application will be sent from the Division of Energy Biosciences office in time to allow for an adequate preparation period for a formal application.

DATES: For timely consideration, all preapplications should be received by February 26, 1996. However, earlier submissions will be gladly accepted. A response to timely preapplications will be communicated by April 18, 1996. The deadline for receipt of formal applications is June 5, 1996.

ADDRESSES: Preapplications referencing Program Notice 96-04 should be forwarded to: U.S. Department of Energy, Office of Basic Energy Sciences, ER-17, Division of Energy Biosciences, 19901 Germantown Road, Germantown, MD 20874-1290, Attn: Program Notice 96-04. Fax submissions are acceptable (Fax Number (301) 903-1003).

FOR FURTHER INFORMATION CONTACT: Ms. Pat Snyder, Division of Energy Biosciences, Office of Basic Energy Sciences, ER-17, 19901 Germantown Road, Germantown, MD 20874-1290, telephone (301) 903-2873.

SUPPLEMENTARY INFORMATION: Before preparing a formal application, potential applicants should submit a brief preapplication in accordance with 10 CFR 600.10 (d)(2), which consists of two to three pages of narrative describing research objectives. These will be reviewed relative to the scope and the research needs of the Energy Biosciences program. The Energy

Biosciences program has the mission of generating fundamental biological information about plants and non-medical related microorganisms that can provide support for future energy related biotechnologies. The objective is to pursue basic biochemical, genetic and physiological investigations that may contribute towards providing alternate fuels, petroleum replacement products, energy conservation measures as well as other technologies such as phytoremediation related to DOE programs. Areas of interest include bioenergetic systems, including photosynthesis; control of plant growth and development, including metabolic, genetic, and hormonal and ambient factor regulation, metabolic diversity, ion uptake, transport and accumulation, stress physiology and adaptation; genetic transmission and expression; plant-microbial interactions, plant cell wall structure and function; lignocellulose degradative mechanisms; mechanisms of fermentations, genetics of neglected microorganisms, energetics and membrane phenomena; thermophily (molecular basis of high temperature tolerance); microbial interactions; and one-carbon metabolism, which is the basis of biotransformations such as methanogenesis. The objective is to discern and understand basic mechanisms and principles.

Funds are expected to be available for new grant awards in FY 1997. The magnitude of these funds available and the number of awards which can be made will depend on the budget process. The awards made during FY 1995 ranged on the average from about \$63,000 to \$175,000 per year, mostly for a three-year duration. The principal purpose in using preapplications at this time is to reduce the expenditure of time and effort of all parties. Information about development and submission of applications, eligibility, limitations, evaluations and selection processes, and other policies and procedures may be found in the 10 CFR Part 605 and the Guide. The Application Guide for the Office of Energy Research Financial Assistance Program for formal submissions and copies of 10 CFR Part 605 are available from U.S. Department of Energy, Office of Basic Energy Sciences, ER-17, Division of Energy Biosciences, 19901 Germantown Road, Germantown, MD 20874-1290. Telephone requests may be made by calling (301) 903-2873. Instructions for preparation of an application are included in the application guide. Electronic access to ER's Financial Assistance Guide is possible via the

Internet using the following E-mail address: <http://www.er.doe.gov/>

The Catalog of Federal Domestic Assistance number for this program is 81.049, and the solicitation control number is ERFAP 10 CFR Part 605.

Issued in Washington, D.C., on November 17, 1995.

D. D. Mayhew,

Associate Director, Office of Resource Management, Office of Energy Research.

Office of Fossil Energy

National Coal Council; Renewal

Pursuant to Section 14(a)(2)(A) of the Federal Advisory Committee Act and in accordance with title 41 of the Code of Federal Regulations, section 101-6.1007 and following consultation with the Committee Management Secretariat of the General Services Administration, notice is hereby given that the National Coal Council has been renewed for a two-year period ending November 23, 1997. The Council will continue to provide advice, information, and recommendations to the Secretary of Energy, on a continuing basis, regarding general policy matters relating to coal issues.

Council members are chosen to assure a well balanced representation from all sections of the country, all segments of the coal industry, including large and small companies, and commercial and residential consumers. The Council also has members who represent interests outside the coal industry, including environmental interests, labor, research, academia, and minorities. Membership and representation of all interests will continue to be determined in accordance with the requirements of the Federal Advisory Committee Act, section 624(b) of the Department of Energy Organization Act (Public Law 95-91), and implementing regulations.

The renewal of the Council has been determined essential to the conduct of the Department's business and in the public interest in connection with the performance of duties imposed upon the Department of Energy by law. The Council will continue to operate in accordance with the provisions of the Federal Advisory Committee Act (Public Law 92-463), the Department of Energy Organization Act (Public Law 95-91), and the implementing regulations.

Further information regarding this advisory committee may be obtained from Rachel M. Samuel at (202) 586-3279.

Issued at Washington, D.C. on November 22, 1995.

JoAnne Whitman,
Deputy Advisory Committee Management Officer.

BILLING CODE 6450-01-M

National Petroleum Council; Renewal

Pursuant to Section 14(a)(2)(A) of the Federal Advisory Committee Act and in accordance with title 41 of the Code of Federal Regulations, section 101-6.1007 and following consultation with the Committee Management Secretariat of the General Services Administration, notice is hereby given that the National Petroleum Council has been renewed for a two-year period ending November 23, 1997. The Council will continue to provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and gas or the oil and gas industry.

Council members are chosen to assure a well-balanced representation from all sections of the country, all segments of the petroleum industry, and from large and small companies. The Council also has members who represent interests outside the petroleum industry, including representatives from environmental, labor, research, academia, minorities, and state utility regulatory commissions. Membership and representation of all interests will continue to be determined in accordance with the requirements of the Federal Advisory Committee Act, section 624(b) of the Department of Energy Organization Act (Public Law 95-91), and implementing regulations.

The renewal of the Council has been determined essential to the conduct of the Department's business and in the public interest in connection with the performance of duties imposed upon the Department of Energy by law. The Council will operate in accordance with the Federal Advisory Committee Act (Public Law 92-463), the Department of Energy Organization Act (Public Law 95-91), and the implementing regulations.

Further information regarding this advisory committee may be obtained from Rachel M. Samuel at 202/586-3279.

Issued at Washington, DC on November 22, 1995.

JoAnne Whitman,
Deputy Advisory Committee Management Officer.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[AMS-FRL-5338-1]

Agency Information Collection Activities Up for Renewal; Request for Comments: Investigation Into Possible Noncompliance of Motor Vehicles With Federal Emission Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following proposed and/or continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB). Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before January 30, 1996.

ADDRESSES: Requests for a copy of the ICR should be sent to Karl Simon, U.S. EPA, 401 M Street S.W. (6405J), Washington, D.C., 20460. Please include a daytime telephone number, a current mailing address, and if available, an E-mail address, with any request.

FOR FURTHER INFORMATION CONTACT: Karl Simon, Vehicle Programs and Compliance Division, U.S. EPA, 401 M Street, S.W. (6405J), Washington, D.C., 20460; (202) 233-9299, FAX (202) 233-9596, E-mail address: Simon.Karl@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

Affected entities: Parties potentially affected by this action are those individuals and businesses who either own cars or trucks or repair such vehicles in the Washington, D.C., Ann Arbor, Michigan, or Denver, Colorado metropolitan areas.

Title: Investigation into Possible Noncompliance of Motor Vehicles with Federal Emission Standards, OMB No. 2060-0086, Expiration Date March 31, 1996.

Abstract: This information collection is composed of instruments used by the U.S. Environmental Protection Agency in its Mobile Source Control Program to elicit information from the public needed for fulfilling its responsibilities under the Clean Air Act. The information collected, specifically motor vehicle or engine operational and maintenance histories, is used to identify properly maintained and used motor vehicles and engines that might
