POSTAL SERVICE

Programmatic Environmental Assessment; Priority Mail Processing System

AGENCY: Postal Service.

ACTION: Notice of finding of no significant impact.

SUMMARY: The Postal Service intends to implement a redesign program for the processing and distribution of Priority Mail, as announced in the Federal Register on October 20, 1995 (60 FR 54265). This program is needed to improve the handling of Priority Mail for achieving a level of on-time delivery higher than current levels. An environmental assessment, prepared by the Postal Service and dated November 1, 1995, concluded that the redesign program will have no effect or only a negligible effect on the components of the physical and cultural environments examined.

EFFECTIVE DATE: December 1, 1995.

FOR FURTHER INFORMATION CONTACT:

Anthony M. Pajunas, (202) 268-3669. Copies of the environmental assessment are available from Operations Networks Redesign, U.S. Postal Service, 425 L'Enfant Plaza SW, Washington, DC 20260-7165.

SUPPLEMENTARY INFORMATION: The Postal Service redesign program for its Priority Mail Processing System includes establishing Priority Mail processing centers at several new facilities along the East Coast. This program will segregate Priority Mail from other mail classes and process and distribute Priority Mail through dedicated facilities. Program performance will be evaluated during a test period, after which the Postal Service will determine further action.

An environmental assessment of the redesign program, dated November 1, 1995, was prepared by the Postal Service. The assessment concluded that, because of the small size of the proposed Priority Mail processing centers relative to the urban areas in which they are to be situated,

implementation of the program is expected to have no effect or only a negligible effect on the components of the physical and cultural environments examined. The program is expected, however, to have a significant effect on improving the on-time delivery performance of Priority Mail, as well as on the remaining components of the postal environment.

Based on the environmental assessment, the Postal Service finds and declares that the proposed action will not have a significant effect on the environment and, therefore, will not require the preparation of an environmental impact statement.

Chief Counsel, Legislative.
