Mapa Pioneer, et al., Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) as amended by the Omnibus Trade and Competitiveness Act of 1988 (P.L. 100-418), the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is determined in this case that all of the requirements have been met.

The investigation was initiated in response to a petition received on October 23, 1995 and filed on behalf of workers at Mapa Pioneer in Willard and Attica Ohio. The workers produce nitrile and neoprene gloves.

The investigation revealed that Mapa Pioneer made a decision in 1995 to transfer its neoprene glove production from its domestic plants to an affiliate in France. In addition, the transfer will result in the closing of the Attica, Ohio facility at the end of 1995.

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with nitrile and neoprene gloves produced at Mapa Pioneer in Willard and Attica, Ohio contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

"All workers of Mapa Pioneer in Willard and Attica, Ohio who became totally or partially separated from employment on or after October 10, 1994 through two years from the date of certification are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."
