CIG proposes this revision to clarify the allocation of capacity to firm Shippers using Secondary Capacity. Specifically, CIG proposes a non-bump policy in connection with Secondary Capacity. A firm Shipper with quantities allocated through Secondary Capacity shall retain its capacity allocation (subject to certain conditions) until the end of a capacity constraint or the end of the month (whichever occurs first). CIG also proposes that the capacity allocation for a Secondary Point Shipper that fails to tender quantities equal to its capacity allocation during a capacity constraint for two consecutive days will drop to the Shipper's average tenders to CIG at the pertinent location during the two day period.
