[CA 157-1-7223b; FRL-5317-3]

Approval and Promulgation of State Implementation Plans; California State Implementation Plan Revision; Sacramento Metropolitan Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: EPA is proposing to approve revisions to the California State Implementation Plan (SIP) which concern the control of volatile organic compound (VOC) emissions from the transfer of gasoline into stationary storage tanks and vehicle fuel tanks. The intended effect of proposing approval of these rules is to regulate emissions of VOCs in accordance with the requirements of the Clean Air Act, as amended in 1990. In the Rules section of this Federal Register, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial amendment and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received in writing by February 22, 1996.

ADDRESSES: Written comments on this action should be addressed to: Daniel A. Meer, Rulemaking Section (A-5-3), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

Copies of the rules and EPA's evaluation report of each rule are available for public inspection at EPA's Region IX office during normal business hours. Copies of the submitted rules are also available for inspection at the following locations:

California Air Resources Board,
Stationary Source Division, Rule

Evaluation Section, 2020 "L" Street, Sacramento, CA 95814.
Sacramento Metropolitan Air Quality Management District, 8411 Jackson Road, Sacramento, CA 95826.

Approval and Promulgation of Implementation Plans; Ohio

AGENCY: U.S. Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: On November 3, 1995, Ohio submitted revisions to its particulate matter plans for the Cleveland and Steubenville nonattainment areas. These revisions were submitted to address plan deficiencies identified by USEPA in a final limited disapproval of the particulate matter plans published in the Federal Register on May 27, 1994, at 59 FR 27464. For the Cleveland area, these revisions provide earlier attainment and correct the deficient test method. For the Steubenville area, these revisions include an administrative order for tightening controls at Wheeling-Pittsburgh Steel's basic oxygen furnace and provide a fully updated modeling analysis demonstrating that the plan assures attainment. USEPA is proposing to approve these revisions. On this basis, USEPA is by separate notice today making an interim final determination that these revisions remedy the deficiencies identified in the
