SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with Lincoln National Forest and the New Mexico State Highway and Transportation Department, will prepare an environmental impact statement (EIS) on a proposal to improve New Mexico Forest Highway (FH) 45, Sacramento River Road. The portion to be improved extends 13.1 miles from Sunspot to Timberon in Otero County, New Mexico. The FHWA is the lead agency. The USDA-Forest Service, Lincoln National Forest, will assist the FHWA in the preparation of the environmental impact statement.

Improvements are being considered to provide a safe, all-weather facility for the existing and projected traffic demand. Alternatives under consideration include (1) taking no action, (2) the improvement of the existing facility to appropriate American Association of State Highway and Transportation Officials (AASHTO) design criteria, and (3) other alternatives that may be developed during environmental process.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies, and to private organizations and citizens. A public scoping meeting and a public hearing will be held in the project area. Information on the time and place of public meetings and hearings will be provided in the local news media and by letter to individuals and agencies that have expressed interest in the proposal. The draft EIS will be available for public and agency review and comment prior to the public hearing.

To ensure that the full range of issues related to the proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments and questions concerning the proposed action should be directed to the FHWA at the address provided above.
