NUCLEAR WASTE TECHNICAL REVIEW BOARD

Board Meeting: April 30-May 1 Meeting in Texas on the Integration of the OCRWM's Site-Characterization and Repository Development Program

Pursuant to its authority under section 5051 of Public Law 100-203, the Nuclear Waste Policy Amendments Act of 1987, the Nuclear Waste Technical Review Board will hold its spring meeting on Tuesday and Wednesday, April 30 and May 1, 1996, in Austin, Texas. The meeting will be held at the Wyndham Austin Hotel, 4140 Governor's Row, Austin, Texas 78744; (tel) 512-448-2222; (fax) 512-442-8028; toll-free reservations (800) 433-2241. To receive the government rate, reservations must be made by April 8, 1996; please mention the Nuclear Waste Technical Review Board meeting. The meeting is open to the public and will begin at 8:30 a.m. both days.

The Board has invited representatives of the Office of Civilian Radioactive Waste Management (OCRWM) and its contractors to describe efforts to integrate the many elements of the site-characterization and repository development program. The Board is interested in understanding what rationale underlies ongoing and future program activities; what specific efforts are being made to integrate major program activities; and how priorities are set when specific activities are being defined and resources allocated. How, for example, are the waste isolation strategy and recent insights from performance assessments being used to make decisions about the overall repository design, about the extent of underground excavation, and about what testing should be carried out? The Board will be briefed on the OCRWM's revised program plans, including their viability assessment of the Yucca Mountain site and their plans for submitting a license application. Substantial time will be set aside on day two for a round-table discussion.

Time also will be set aside for public comment and questions. To ensure that

everyone wishing to speak is provided time to do so, the Board encourages those who have comments to sign the Public Comment Register, which will be located at the sign-in table. Depending on the number of people wishing to speak, a time limit may have to be set on the length of individual remarks. However, written comments of any length may be submitted for the record.

The Nuclear Waste Technical Review Board was created by Congress in the Nuclear Waste Policy Amendments Act of 1987 to evaluate the technical and scientific validity of activities undertaken by the DOE in its program to manage the disposal of the nation's spent nuclear fuel and defense high-level waste. In that same legislation, Congress directed the DOE to characterize a site at Yucca Mountain, Nevada, for its suitability as a potential location for a permanent repository for the disposal of that waste.

Transcripts of this meeting will be available on computer disk or on a library-loan basis in paper format from Davonya Barnes, Board staff, beginning June 11, 1996. For further information, contact Frank Randall, External Affairs, 1100 Wilson Boulevard, Suite 910, Arlington, Virginia 22209; (Tel) 703-235-4473; (Fax) 703-235-4495.

Dated: March 12, 1996.

William Barnard,

*Executive Director, Nuclear Waste Technical
Review Board.*

BILLING CODE 7905-01-M

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available
From: Securities and Exchange
Commission, Office of Filings and
Information Services, Washington, DC
20549

Extension:

Rule 236—SEC File No. 270-118, OMB
Control No. 3235-0095

Reg. B—SEC File No. 270-102, OMB
Control No. 3235-0093

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget requests for approval of extension on the following:

Rule 236 that requires issuers wishing to rely upon an exemption from registration from the Securities Act of 1933 ("Securities Act") for the issuance of fractional shares, script certificates or order forms, in connection with a stock dividend, stock split, reverse stock split, conversion, merger or similar transaction to furnish specified information to the Commission in writing at least ten days prior to the offering. The information is needed to provide notice that an issuer is relying on the exemption. Public companies are the likely respondents. An estimated ten submissions are made pursuant to Rule 236 annually, resulting in an estimated annual total burden of 15 hours.

Regulation B provides exemptions from the Securities Act relating to fractional undivided interests in oil or gas rights. Persons offering securities under this exemption, as conditions to the exemption, are still required to file basic prescribed documents with the Commission containing certain material information and to provide prospective investors with this information with respect to such securities. A report on Form 1-G must be filed with the Commission on or before the 15th day after the expiration of each effective offering sheet pursuant to Regulation B, or the termination of sales, whichever comes first. Not later than three calendar months after the termination of the offering, the offeror must file with the Commission and send to purchasers of interests a report on Form 3-G. An estimated 5 submissions are made pursuant to Regulation B annually, resulting in an estimated total annual reporting burden of 205 hours.

General comments regarding the estimated burden hours should be directed to the Desk Officer for the
