In addition, Public Law 93-498 authorizes the United States Fire Administration to provide stipends to students attending NFA courses. The General Admissions Application is also used to determine which students receive stipend payments. Stipends are not paid to Federal employees, private industry employees, or foreign students.

FEMA Form 75-9, National Fire Academy Roster of Course Completion, is used to admit applicants to NFA off-

campus courses. To assist the NFA in achieving its mission to advance the professional development of fire service personnel, a strong cooperative partnership has been established with State and local fire training systems. This partnership has resulted in the ongoing development and delivery of a series of courses which constitute the NFA's off-campus program curriculum. NFA off-campus courses offer short term intensive training designed to provide maximum participation by fire service/rescue personnel and allied

professionals. Because many volunteer and career fire service personnel can not afford the time required for attending on-campus resident programs, these off-campus courses provide training opportunities within the State and local community. The National Fire Academy Roster of Course Completion is used by the State and local sponsoring agency, and is completed by the student when the class is conducted.

Affected Public: Individuals or households, Not-for-profit institutions, and State, local or tribal governments.
