Approval and Promulgation of Implementation Plans; Ohio

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the Particulate Matter contingency measures State Implementation Plan (SIP) revisions submitted by the State of Ohio on July 17, 1995. This submittal addresses the Federal Clean Air Act requirement to submit contingency measures for particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers (PM) for the areas designated as nonattainment for the PM National Ambient Air Quality Standards (NAAQS). Contingency measures are emission reductions which are to be implemented, with no further action, in the event that an area fails to meet air quality standards. In the final rules section of this Federal Register, the EPA is approving this action as a direct final rule without prior proposal because EPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated

in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on the proposed rule.
