BILLING CODE 4163-18-P

Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Plan for the Child Care and Development Block Grant.
OMB No.: 0970-0114.
Description: This legislatively-mandated plan serves as the agreement between the grantee and the Federal Government as to how CCDBG programs

will be operated. The plans provide assurances that the funds will be administered in conformance with the legislative requirements, pertinent Federal Regulations, and other applicable instructions or guidelines issued by ACF.

Respondents: State governments.

Annual Burden Estimates:

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
ACF-700	282	1	40	11,280

Estimated Total Annual Burden Hours: 11,280.
Additional Information: Copies of the proposed collection may be obtained by writing to The Administration for Children and Families, Office of Information Services, Division of Information Resource Management Services, 370 L'Enfant Promenade, S.W., Washington, D.C. 20447, Attn: ACF Reports Clearance Officer.

OMB Comment: OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the Federal Register. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, 725 17th Street, N.W., Washington, D.C. 20503, Attn: Ms. Wendy Taylor.

Dated: May 6, 1996.
 Roberta Katson,
Director, Office of Information Resource Management Services.

BILLING CODE 4184-01-M

Food and Drug Administration

[Docket No. 94N-0155]

Nutrient Values for the Voluntary Nutrition Labeling of Raw Fruits, Vegetables, and Fish; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of updated nutrition

labeling values for the 20 most frequently consumed raw fruits, vegetables, and fish in the United States. The agency is making these values available to assist those food retailers who wish to update the voluntary nutrition labeling information that they make available to consumers before FDA's next survey of retail stores to determine whether there is substantial compliance with the voluntary nutrition labeling program.

ADDRESSES: Submit written requests for single copies of the nutrition labeling values to the Division of Technical Evaluation (HFS-165), Office of Food Labeling, Center for Food Safety and Applied Nutrition, Food and Drug Administration, 200 C St. SW., Washington, DC 20204. Requests should be identified with the docket number found in brackets in the heading of this document. Send a self-addressed adhesive label or fax number to assist that office in processing your requests.

FOR FURTHER INFORMATION CONTACT: Mary M. Bender, Center for Food Safety and Applied Nutrition (HFS-165), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-205-5592, FAX 202-205-5532.

SUPPLEMENTARY INFORMATION: The Nutrition Labeling and Education Act of 1990 amended the Federal Food, Drug, and Cosmetic Act (the act) to require, among other things, that under section 403(q)(4) of the act (21 U.S.C. 343(q)(4)), FDA: (1) Identify the 20 most frequently consumed raw fruits, vegetables, and fish in the United States; (2) establish guidelines for the voluntary nutrition labeling of these raw fruits, vegetables, and fish; and (3) issue regulations that define "substantial compliance" with respect to the adherence by food retailers with those guidelines. In the Federal Register of July 2, 1991 (56 FR 30468 at 30479 through 30481), FDA

responded to these requirements by issuing a proposal, and, in the Federal Register of November 27, 1991 (56 FR 60880), the agency published a final rule on the nutrition labeling of raw fruits, vegetables, and fish (corrected on March 6, 1992 (57 FR 8174)). In the Federal Register of July 18, 1994 (59 FR 36379) (corrected on July 21, 1994 (59 FR 37190)), FDA published a proposal to revise the guidelines and the labeling values for the 20 most frequently consumed raw fruits, vegetables, and fish. FDA plans to publish a final rule on that rulemaking in the near future.

Under the guidelines of the voluntary labeling program, nutrition labeling information should be provided in close proximity to the place in the retail establishment where raw fruits, vegetables, and fish are displayed for sale. Information may be made available in signs, posters, brochures, notebooks, or leaflets and may be supplemented by video, live demonstration, or other media. Nutrition labeling information may also be provided on the individual food package.

In § 101.43 (21 CFR 101.43), FDA defined substantial compliance to mean that at least 60 percent of the food retailers sampled in a representative survey provide nutrition labeling information (as specified in the guidelines) for at least 90 percent of the foods that they sell that are included on the listing of the most frequently consumed raw fruits, vegetables, and fish. Section 403(q)(4)(C)(ii) of the act states that if substantial compliance is achieved by food retailers, FDA is to reassess voluntary labeling compliance every 2 years. The act also states that, if substantial compliance is not achieved, FDA is to propose to require that nutrition information be provided by any person who offers raw fruits and vegetables or raw fish to consumers (section 403(q)(4)(D)(i)).
