Notice of Lodging of Consent Decree Pursuant to the Clean Air Act

In accordance with Departmental policy, 28 CFR 50.7, and pursuant to Section 113(g) of the Clean Air Act, 42 U.S.C. 7413(g), notice is hereby given that on May 22, 1996, a proposed Consent Decree in *Sierra Club v. Public Service Company of Colorado, Inc.*, Civil Action No. 93-B-1749, was lodged with the United States District Court for the District of Colorado. The proposed Consent Decree settles the claims of the plaintiff Sierra Club, and the proposed plaintiff-intervenors, the United States and the State of Colorado, pursuant to the Clean Air Act, 42 U.S.C. 7401 *et seq.*, and the State of Colorado's State Implementation Plan against the defendants Public Service Company of Colorado, Inc., Salt River Project Agricultural Improvement and Power District and PacifiCorp. The claims of Sierra Club, the United States and the State of Colorado relate to the operation of Hayden Station, a fossil fuel-fired power generating facility in Hayden, Colorado, owned and operated by the defendants.

Under the terms of the Consent Decree, the defendant will pay a \$2,000,000 civil penalty to the United States Treasury to resolve the claims of Sierra Club and the United States. The defendants must determine within 180 days of lodging whether the two power generating units at Hayden Station will be converted from combusting coal as a primary fuel source to combusting natural gas. If the defendants elect to continue combusting coal at Hayden Station, air pollution control equipment to reduce emissions of sulfur dioxide, nitrogen oxides and particulate matter must be installed at Hayden Station for Unit 1 by December 31, 1998 and for Unit 2 by December 31, 1999. If the defendants elect to convert Hayden Station to natural gas, the conversion must be completed by December 31, 1998. In either event, the Consent Decree establishes more stringent emission limitations for Hayden Station for sulfur dioxide, nitrogen oxides, and particulate matter.

To protect and improve the air quality in the Yampa Valley where Hayden Station is located, the Consent Decree requires the defendants shall pay \$2,000,000 for land conservation purposes and \$250,000 for the conversion of wood stove and/or vehicles to natural gas in the Yampa Valley.
