

covenant not to sue (for private parties) or a covenant not to take administrative action (for federal parties) under Sections 106 and 107(a) of CERCLA, 42 U.S.C. 9606 and 9607(a), and under section 7003 of the Solid Waste Disposal Act, as amended (also known as the Resource Conservation and Recovery Act), which will resolve fully each settling party's liability at the Site.

The amount that each individual PRP will pay, as shown above, was based upon the number of gallons of hazardous substances manifested to the Site. The total amount of settlement dollars owed by each party to the settlements was arrived at by multiplying the cost per gallon by the number of gallons a party manifested to the Site ("Base Amount") and then adding to this amount a premium payment equal to 9% or 50% (see discussion below) of the Base Amount. The cost per gallon of \$1.9612736353 was derived by dividing the estimated clean-up cost at the time of calculation of \$2,472,361.52 by the 1,260,589.79 total gallons of hazardous substances manifested to the Site.

To be eligible for the *de minimis* settlements, each PRP must have submitted a response to EPA's Request for Information, and must have contributed no more than .7% of the total volume of hazardous substances manifested to the Site. PRPs that submitted timely responses to EPA's Request for Information were allowed to participate in the settlements at the 9% premium level. PRPs that failed to respond to EPA's First Request for Information and the Follow-up Request for Information letters when originally issued, have been allowed to participate in the *de minimis* settlements at the 50% premium level, provided they submitted a full response to EPA's Information Request prior to publication of this notice.

It is so agreed:

Dated: June 27, 1996.

Jack W. McGraw,

Acting Regional Administrator, U.S.
Environmental Protection Agency, Region
