Appalachian Power Company; Notice of Availability of Environmental Assessment

August 27, 1996.

An environmental assessment (EA) is available for public review. The EA is for an application to amend the license for the Smith Mountain Hydroelectric Project. The application is to: (1) Make an administrative correction to the project's licensed installed capacity; and (2) upgrade two turbine runners at the project's Smith Mountain Powerhouse. The EA finds that approval of the application would not constitute a major federal action significantly affecting the quality of the human environment. The Smith Mountain Hydroelectric Project is located on the Roanoke River in Bedford, Franklin, Pittsylvania, Cambell, and Roanoke Counties, Virginia.

The EA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the EA can be viewed at the Commission's Reference and Information Center, Room 2A, 888 First Street, N.E., Washington, D.C. 20426. Copies can also be obtained by calling
