SUPPLEMENTARY INFORMATION:

Maritime Administration (MARAD)

Title: Uniform Financial Reporting Requirements.

Type of Request: Approval of changes to a currently approved information collection.

OMB Control Number: 2133-0005.

Form Number: MA-172.

Affected Public: Various ship-building and ship-owning companies which choose to participate in the Maritime Administration's loan guarantee and operating support programs.

Abstract: Form MA-172 consists of a balance sheet, an income statement, schedules of debt and equipment, and listings of company officers, stockholders, and related parties. In

order to reduce the burden of the current information collection, Form MA-172 would be reduced in scope and number of schedules. The information in the MA-172 is integral to conventional financial records generally kept by all businesses, but is supplemental to their financial statements prepared periodically. Therefore, much of the form can be satisfied by the information found in the financial statements audited by certified public accountants and can be substituted by copies of the published data or listings from the company records.

Thus, the time required to complete a MA-172 can be reduced to an efficient gathering of existing documents.

Need and Use of the Information: MARAD administers financial assistance programs promoting the U.S. merchant marine. This information collection is in compliance with those program regulations requiring financial reporting used in reviews and analyses to determine compliance with contractual requirements and to evaluate industry financial trends.

Estimated Annual Burden: The total annual burden is 2,375 hours for 190 responses, 12 hours per response. The total hours should decrease when the changes covered by this request for comments are implemented.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW, Washington, DC 20503, Attention OST Desk Officer.

Comments are Invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on September 17, 1996.
