

public interest justifies the contract term addition.

(c) *Granting market-related contract term additions.* When the Chief of the Forest Service determines, pursuant to this section, that a drastic reduction in wood product prices has occurred, the Forest Service is to notify affected timber sale purchasers. For any contract which has been awarded and has not been terminated, the Forest Service, upon a purchaser's written request, will add 1 year to the contract's term, except as provided in paragraphs (c) (1) through (3) of this section. This 1-year addition includes time outside of the normal operating season.

(1) For each additional consecutive quarter, in which a contract qualifies for a market-related contract term addition, the Forest Service will, upon the purchaser's written request, add an additional 3 months during the normal operating season to the contract.

(2) No more than twice the original contract length or 3 years, whichever is less, shall be added to a contract's term by market-related contract term addition.

(3) In no event shall a revised contract term exceed 10 years as a result of market-related contract term additions.

(d) *Recalculation of periodic payments.* Where a contract is lengthened as a result of market conditions, any subsequent periodic payment dates shall be delayed 1 month for each month added to the contract's term.

Dated: October 8, 1996.

J. Kenneth Myers,

Acting Chief.

[FR Doc. 96-26755 Filed 10-18-96; 8:45 am]

BILLING CODE 3410-11-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-7194]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the

proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations and modified base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Michael K. Buckley, P.E., Chief, Hazard Identification Branch, Mitigation Directorate, 500 C Street SW., Washington, DC 20472, (202) 646-2756.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with Section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Acting Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the NFIP. No regulatory flexibility analysis has been prepared.

Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform

This proposed rule meets the applicable standards of Section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR Part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for Part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq.; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet. (NGVD)	
				Existing	Modified
Arizona	Navajo County (Unincorporated areas).	Buckskin Wash	Approximately 0.59 mile downstream of Green Valley Road.	None	*6,481
			Approximately 0.54 mile upstream of South Meadow Road.	None	*6,551
<p>Maps are available for inspection at the Navajo County Public Works Department, County Courthouse, South Highway 77, Holbrook, Arizona. Send comments to The Honorable Pete Shumway, Chairman, Navajo County Board of Supervisors, P.O. Box 668, Holbrook, Arizona 86025.</p>					
California	Angels (city) Calaveras County.	Angels Creek	Approximately 2,900 feet downstream of State Highway 49.	None	*1,314
		China Gulch	At Kurt Lane	None	*1,403

BILLING CODE 6718-04-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 1 and 73

[MM Docket No. 96-16, DA 96-1594]

Revision of Broadcast EEO Policies

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extension of reply comment period.

SUMMARY: In *Streamlining Broadcast EEO Rules and Policies*, DA 96-1594, released September 20, 1996, the Commission accepts late-filed comments and, on its own motion, extends the date for filing reply comments concerning the Commission's

Order and Notice of Proposed Rule Making, MM Docket No. 96-16. A group of organizations (Petitioners) requests the acceptance of their late-filed comments, citing various reasons for the delay, including loss of staff and the failure of three hard drives. Because of these circumstances and in the interest of compiling a full record in this rule making, the Commission will accept these comments. In addition, due to the lateness of Petitioners' comments and their voluminous nature, the Commission believes that the public interest favors an extension of time for filing reply comments.

DATES: Reply comments due October 25, 1996.

ADDRESSES: Office of the Secretary, Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Hope G. Cooper, Mass Media Bureau, Enforcement Division. (202) 418-1450.

SUPPLEMENTARY INFORMATION: 1. On February 8, 1996, the Commission adopted an *Order and Notice of Proposed Rule Making*, 11 FCC Rcd

5154 (1996), 61 FR 9964 (March 12, 1996), which vacated the Commission's *EEO Forfeiture Policy Statement* and requested comment on proposals for amending the Commission's EEO Rule and policies. Comment and Reply Comment dates were established for April 30, 1996, and May 30, 1996, respectively.

2. On April 12, 1996, twenty organizations, including the Minority Media and Telecommunications Council (hereinafter "Petitioners"), filed a Motion for Extension of Time to file comments in response to the above-captioned proceeding.¹ On April 26, 1996, the Commission granted the Petitioners' request for extension of time.² The date for filing comments was extended to July 1, 1996, and the date

¹ *Minority Media and Telecommunications Council et al.*, Motion For Extension of Time, MM Docket No. 96-16, filed April 12, 1996. For the names of the twenty organizations, see National Council of Churches et al., Petition For Reconsideration and Clarification, MM Docket No. 96-16, filed April 11, 1996, at 1.

² FCC 96-198 (released: April 26, 1996), 61 FR 25183 (May 20, 1996).
