

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Business or other for-profit, individuals or households, non-profit institutions, state and local governments.

Number of Respondents: 160.

Estimated Time Per Response: 1 hour.

Total Annual Burden: 160 hours.

Total Annual Cost: 0.

Needs and Uses: The reporting requirement contained in Section 80.145 is necessary to ensure that the U.S. Coast Guard is timely notified when a coast station, which is responsible for maintaining a listening watch on a designated marine distress and safety frequency, discontinues, reduces or impairs its communications services. This notification allows the Coast Guard to seek an alternate means of providing radio coverage to protect the safety of life and property at sea or object to the planned diminution of service. The information is used by the U.S. Coast Guard district office nearest to the coast station. Once the Coast Guard is aware that such a situation exists, it is able to inform the maritime community that radio coverage has or will be affected and/or seek to provide coverage of the safety watch via alternate means. When appropriate the Coast Guard may file a petition to deny an application.

Federal Communications Commission.

William F. Caton,

Acting, Secretary.
