

several alleged causes of the rollover, the only specific defect the petitioner alleges is the failure of the safety belt system to hold the occupant in a rollover. Consequently, the agency focused on that alleged defect in processing the petition.

NHTSA's Office of Defects

Investigation searched its computerized database for all complaints relating to the safety belt system on model year 1987 through 1989 Subaru vehicles. The complaint descriptions were examined for any problem relating to failure of the safety belt system to restrain the occupant in a vehicle accident. The search yielded only six complaints, four of which were on 1988 Subaru GL models (sedan and wagon styles) and the other two of which were on DL model wagons, one for model year 1987 and another for model year 1989.

Of these six complaints, four had incident dates prior to the end of calendar year 1991. The remaining two were dated June and December 1995. The DL model complaints had incident dates of June 1990 and November 1991. Three out of the six complaints were allegedly accident related and four injuries resulted. The injuries have not been confirmed to be the result of a safety belt malfunction.

In order to gauge the severity of the issue, the six Subaru complaints were compared with those on 14 other similar models for the model years 1987 through 1989. All complaint rates are based on number of complaints versus the vehicle population. The database showed that the Subaru GL/DL models had lower "failure to restrain" complaint rates than did many other models. The rates varied from 5.39 to 0.64, with an average rate of 2.47 complaints per 100,000 vehicles. The Subaru GL/DL complaint rate for model years 1987 through 1989 was 1.71.

The Office of Defects Investigation also searched its databases for any recalls, past or present investigations, and any service bulletins relating to the alleged defect on 1988 Subaru vehicles and found none.

Based on the information available at this time, the fact that the Subaru "failure to restrain" complaint rate is lower than that of other similar models (i.e., Toyota Tercel, Honda Civic, Ford Escort and Toyota Camry), and the petitioner's failure to specify any particular problem with respect to the design or construction of the subject safety belt system, the agency has determined that it would not be appropriate to devote agency resources to an investigation. For the above reasons, the petition is hereby denied.

Authority: 49 U.S.C. 30162(a); delegations of authority at 49 CFR 1.50 and 501.8.

Issued on November 1, 1996.

Michael B. Brownlee,
Associate Administrator for Safety Assurance.

BILLING CODE 4910-59-P

Saint Lawrence Seaway Development Corporation

Advisory Board; Notice of Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of the Advisory Board of the Saint Lawrence Seaway Development Corporation, to be held at 2:00 p.m., November 20, 1996, Corporation's Washington, D.C. office, 400 7th Street, S.W., Suite 5424, Washington, D.C. 20590 via conference call. The agenda for this meeting will be as follows: Opening Remarks; Consideration of Minutes of Past Meeting; Review of Programs; New Business; and Closing Remarks.

Attendance at meeting is open to the interested public but limited to the space available. With the approval of the Administrator, members of the public may present oral statements at the meeting. Persons wishing further information should contact not later than November 18, 1996, Marc C. Owen, Advisory Board Liaison, Saint Lawrence Seaway Development Corporation, 400 Seventh Street, S.W., Washington, D.C. 20590; 202-366-0091.

Any member of the public may present a written statement to the Advisory Board at any time.

Issued at Washington, D.C. on October 30, 1996.

Marc C. Owen,
Advisory Board Liaison.

BILLING CODE 4910-61-M

Surface Transportation Board

[STB Finance Docket No. 33131]

Dallas, Garland and Northeastern Railroad—Trackage Rights Exemption—The Kansas City Southern Railway Company

The Kansas City Southern Railway Company (KCS) has agreed to grant local trackage rights to the Dallas, Garland and Northeastern Railroad (DGNO) over tracks in Dallas, TX, from milepost 210.5 (STA 3521 + 45), in Garland, TX, to milepost 220.28 (STA 3006 + 89), in Tenneson, TX, and from

the point of switch at KCS's connection with the Browder yard at milepost 5 + 2677.87 (STA 423 + 35.2) to milepost 8+4886 (STA 290 + 77.87) on the trackage commonly known as the Hale Cement Spur.

The transaction was scheduled to be consummated on October 10, 1996.

The trackage rights will improve the efficiency of operations in the West Dallas area and increase the satisfaction of shippers located on the Hale Cement Spur.

As a condition to this exemption, any employees affected by the trackage rights will be protected by the conditions imposed in *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

This notice is filed under 49 CFR 1180.2(d)(7). If it contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 33131, must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Branch, 1201 Constitution Avenue, NW., Washington, DC 20423. In addition, a copy of each pleading must be served on Jay M. Nadlman, Esq., The Kansas City Southern Railway Company, 114 West Eleventh Street, Kansas City, MO 64105.

Decided: November 5, 1996.

By the Board, David M. Konschnik,
Director, Office of Proceedings.
Vernon A. Williams,
Secretary.
