

[Docket No. CP92-298-001]

**U-T Offshore System; Notice of Application To Amend Certificate**

January 28, 1997.

Take notice that on January 15, 1997, U-T Offshore System (UTOS), 600 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP92-298-001, an application pursuant to Section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations (18 CFR 157), to amend its certificate of public convenience and necessity issued in Docket No. CP92-298-000, to reflect a change in delivery of gas currently being processed in the Cameron Plant in Johnsons Bayou, Cameron Parish, Louisiana (Cameron Plant), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

UTOS states that the original certificate issued on April 8, 1992, authorized it to construct and operate certain pipeline facilities to deliver certain volumes for processing at the Cameron Plant. UTOS explains that the reason for the amendment is because the Cameron Plant is transferring certain of its pipeline facilities immediately downstream of UTOS' delivery point in order to permit the gas that has been processed in the Cameron Plant to now be processed at the Barracuda Plant, and to the extent necessary from time to time, at other nearby processing plants. UTOS says that it was advised that such gas will be redelivered following processing to the same array of downstream pipelines that currently receive the processed gas at the tailgate of the Cameron Plant.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 18, 1997, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene

in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, or if the Commission on its own review of the matter finds that a grant of the certificate for the proposal is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for UTOS to appear or be represented at the hearing.
