**ENVIRONMENTAL PROTECTION AGENCY**

[FRL-5806-1]

**Michigan: Final Determination of Adequacy of State Municipal Solid Waste Landfill Permit Program**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of final determination of adequacy for Michigan's amended application.

**SUMMARY:** Section 4005(c)(1)(B) of the Resource Conservation and Recovery Act (RCRA), as amended by the Hazardous and Solid Waste Amendments (HSWA) of 1984, requires States to develop and implement permit programs to ensure that municipal solid waste landfills (MSWLFs) which may receive household hazardous waste or small quantity generator waste will comply with the revised Federal MSWLF Criteria (40 CFR part 258). RCRA section 4005(c)(1)(C) requires the United States Environmental Protection Agency (U.S. EPA) to determine whether States have adequate "permit" programs for MSWLFs, but does not mandate issuance of a rule governing such determinations. The U.S. EPA has proposed a State/Tribal Implementation Rule (SIR) (61 FR 2584, January 26, 1996) that provides procedures by which the U.S. EPA will approve, or partially approve, State landfill permit programs. The Agency intends to approve adequate State MSWLF permit programs as applications are submitted. Thus, these approvals are not dependent on final promulgation of the SIR. Prior to final promulgation of the SIR, adequacy determinations will be made based on statutory authorities and requirements. In addition, States may use the proposed SIR as an aid in interpreting these requirements. The Agency believes that early approvals have an important benefit. Approved State permit programs provide for interaction between the State and the owner/operator regarding site-specific permit conditions. Only those owners/operators located in States with approved permit programs can use the site-specific flexibility provided by 40 CFR part 258 to the extent the State permit program allows such flexibility.

Michigan applied for a partial program determination of adequacy under Section 4005 of RCRA on October 6, 1993. The U.S. EPA reviewed Michigan's application and made a final partial program determination of adequacy on March 10, 1994 (59 FR 11268, March 10, 1994) for those portions of the MSWLF permit program that were adequate to ensure compliance with the revised Federal MSWLF Criteria. Michigan amended its original application and applied for approval of the remaining portion of its program on March 3, 1997. The U.S. EPA reviewed Michigan's amended application and today is issuing a tentative determination of adequacy for the remaining portion of Michigan's MSWLF permit program relating to financial assurance requirements. Michigan's amended application is
