[Docket 23-97]

Foreign-Trade Zone 98—Birmingham, Alabama: Application for Subzone Status, JVC America, Inc. (Videotape and Videocassettes) Tuscaloosa County, Alabama

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City of Birmingham, Alabama, grantee of FTZ 98, requesting special-purpose subzone status for the VHS videotape and videocassette manufacturing facility of JVC America, Inc. (JVC) (subsidiary of Victor Company of Japan, Ltd.), located at sites in Tuscaloosa County, Alabama. The application was submitted pursuant to

the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on March 25, 1997.

The JVC plant (440,000 sq. ft. on 103 acres) consists of two sites in Tuscaloosa County, Alabama: *Site 1:* (400,000 sq. ft. on 101 acres)—production facility located at 1 JVC Road, adjacent to I-20/59, some 15 miles east of the City of Tuscaloosa; *Site 2:* (40,000 sq. ft. on 2 acres)—warehouse located at 1010 19th Avenue, City of Tuscaloosa. The facility (235 employees) produces prepared unrecorded media such as VHS videotape and videocassettes. (Compact discs are also manufactured at the site, but authority to conduct such manufacture under zone procedures is not being requested at this time.) Some 15 percent of production is exported.

Zone procedures would exempt JVC from Customs duty payments on foreign materials used in production for export. On domestic shipments, the company would be able to choose the duty rate that applies to videotape and videocassettes (2.5%, becoming duty-free in 1999 upon final implementation of the Uruguay Round of GATT), instead of the rates (ranging from duty-free to 9.7%) otherwise applicable to the foreign materials. Foreign components, which account for an estimated 40 percent of material value, include carbon, iron oxides and hydroxides, palmitic/stearic acids, plasticizers, printing ink, polyvinyl chloride, polyurethanes, splice tape, packaging film, glue, polyethylene terephthalate film, cassette housings, cassette hubs, bemcot wipes, glass beads, filters, and prepared unrecorded media. The application indicates that the savings from zone procedures will help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is June 9, 1997. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to June 23, 1997).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

U.S. Department of Commerce, Export Assistance Center, Medical Forum Building, 7th Floor, 950 22nd Street North, Birmingham, AL 35203; Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 3716, 14th & Pennsylvania Avenue, NW, Washington, DC 20230.

Foreign-Trade Zones Board

[Docket 24-97]

Foreign-Trade Zone 183—Austin, Texas and Foreign-Trade Subzone 183A—Dell Computer Corporation; Application for Expansion

An application has been submitted to the Foreign-Trade Zones Board (the

Board) by the Foreign Trade Zone of Central Texas, Inc., grantee of FTZ 183, requesting authority to expand Subzone 183A at the computer manufacturing facilities of Dell Computer Corporation (Dell) located in Austin, Texas. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on March 27, 1997.

Subzone 183A was approved on November 16, 1992 (Board Order 607, 57 FR 56902, 12/1/92) and expanded on December 23, 1996 (Board order 861, 62 FR 1316, 1/9/97). The subzone currently consists of the following three sites: *Site 1* (42.5 acres) located in the Braker Center Industrial Park, at the intersection of Braker Lane and Metric Boulevard; *Site 2* (12 acres) McKalla 2 (124,000 sq. ft.) located at 2500 McHale Court within the Rutland Center Industrial Park and McKalla I (135,000 sq. ft.) located at 10220 McKalla Drive; and, *Site 3* (11 acres) Research 1 (100,685 sq. ft.) located at 8801 Research Boulevard, Austin, Texas.

The applicant is now requesting authority to expand existing *Site 1* to include the entire Braker Center Industrial Park (55 acres) and to include two additional sites: proposed *Site 4* (33 acres, 546,750 sq ft) located in Metric Center at 2207 and 2209 Rutland Drive, 9709 Burnet Road and 2106 W. Rundberg in Austin; and proposed *Site 5* (4 acres, 61,676 sq ft) located in Longhorn Business Park at 2545 Brockton Drive in Austin.

Dell is authorized to manufacture computers and related products under zone procedures within Subzone 183A. This proposal does not request any new manufacturing authority under FTZ procedures in terms of products or components, but it does involve a proposed increase in the plant's level of production under FTZ procedures corresponding to the increase in plant size.

In accordance with the Board's regulations (as revised, 56 FR 50790-50808, 10/8/91), a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment (original and 3 copies) is invited from interested parties (see FTZ Board address below). The closing date for their receipt is June 9, 1997. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to June 23, 1997).

A copy of the application and accompanying exhibits will be available
