Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991, Order on Further Reconsideration**AGENCY:** Federal Communications Commission.**ACTION:** Final rule.

SUMMARY: On April 10, 1997, the Commission released an Order on Further Reconsideration clarifying that a facsimile broadcast service provider must ensure that the identifying information of the entity on whose behalf the provider sent facsimile messages appears on messages. We determine that the sender of a facsimile message is the creator of the content of the message. The Order on Further Reconsideration is intended to alert the industry and the general public that a facsimile message must include the identification of the business, other entity, or individual creating or originating the message.

Analysis of Proceeding

In the Order on Further Reconsideration, the Commission reconsiders our determination in the Memorandum Opinion and Order (60 FR 42068, August 15, 1995) that a facsimile broadcast service provider must ensure that its identifying information and the identifying information of the entity on whose behalf it sent facsimile messages must

appear on the messages. The Commission finds that the sender of a facsimile message is the creator of the content of the message. Thus, the Commission concludes that Section 227(d)(1) of the Telephone Consumer Protection Act of 1991, Public Law 102-243 (1991), mandates that a facsimile message must include the identification of the business, other entity, or individual creating or originating that message and not the entity that transmits the message.

Ordering Clauses

Accordingly, pursuant to Sections 4(i), 227(d)(2) and 405(a) of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 227(d)(2) and 405(a), and Section 1.106 of the Commission's Rules, 47 CFR § 1.106, it is ordered, that MCI's petition for clarification or, in the alternative, reconsideration is granted.

The Magnuson-Stevens Fishery Conservation and Management Act authorizes the North Pacific Fishery Management Council (Council) to prepare and amend fishery management plans for any fishery in waters under its jurisdiction. In December 1978, the Council prepared the Fishery Management Plan for the High Seas Salmon Fishery off the Coast of Alaska East of 175° E. Long. (Salmon FMP) and submitted it to the Secretary of Commerce (Secretary) for approval. On May 3, 1979, the Secretary approved the Salmon FMP, and it was implemented in May 1979 by Federal regulations at 50 CFR part 674.

As a result of the President's Regulatory Reform Initiative (61 FR 31228, June 19, 1996), NMFS removed parts 671, 672, 673, 675, 676, and 677 of title 50 CFR and consolidated the regulations contained therein into one new part, 50 CFR part 679. The consolidation of 50 CFR part 674, the regulations implementing the Salmon FMP, was delayed due to extensive review of the management of the High Seas Salmon Fishery by NMFS. This final rule removes 50 CFR part 674 and consolidates the regulations contained therein into 50 part 679. This action provides the public with a single reference source for the Federal fisheries regulations specific to the EEZ off Alaska and results in regulations that are more concise and easier to use.

Technical Amendment

Regulations implementing the Fishery Management Plan for Groundfish of the Gulf of Alaska and the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area appear at 50 CFR part 679. Due to the complexity of the consolidation of the six parts into part
