

Funding, COE Section 10 and 404 Permits and US Coast Guard Bridge Permit Issuance, Burnswick and New Hanover Counties, NC.

Summary: EPA had environmental objections or concerns with all four alternatives evaluated in detail. Alternatives 2 and 3 have greater wetlands impact and occupy Red-cockaded woodpecker forage areas. All alternatives would impact adversely a minority/low-income community at the interchange with US 17. EPA requested additional mitigation for secondary impacts and wetland losses.

ERP No. D-FHW-E40772-AL Rating EC2, Industrial Parkway Connector Project, Transportation Improvement, from Lott Road (AL-217) to US 45, Funding, COE Section 404 Permit and NPDES Permit, Mobile County, AL.

Summary: EPA expressed environmental concerns that wetlands and forested areas be avoided. Details on wetland mitigation are needed in final EIS.

ERP No. D-FHW-L40202-WA Rating EO2, I-5 Toutle Park Road to Maytown, Transportation Improvements, Funding, COE Section 404 Permit, US Coast Guard and NPDES Permits, Cowlitz, Lewis and Thurston Counties, WA.

Summary: EPA expressed environmental objection related to the structuring of the draft EIS as a project-specific document. Based on EPA's early participation in the development of the project tiered documents would be used in support of specific projects as they come on-line. EPA does not believe the present document provides sufficient information to adequately disclose the potentially significant impacts from the project and serve as the sole NEPA documentation for the entire 42.5 mile project. EPA believed that additional information and technical analyses related to alternatives, wetlands, avoidance/impacts/mitigation, floodplain impacts, surface and groundwater impacts, and indirect/secondary/cumulative effects are needed.

ERP No. D-NPS-L65277-WA Rating LO, Lake Crescent Management Plan, Implementation, Olympic National Park, WA.

Summary: Our abbreviated review has revealed no EPA concerns on this project.

ERP No. DS-FHW-E40758-NC Rating EO2, Wilmington Bypass Transportation Improvement Program, Updated Information, Construction from I-40 to US 421, Funding, NPDES and U.S. Coast Guard, and COE Section 10 and 404 Permits, New Hanover County, NC.

Summary: EPA expressed environmental objections to the

Southern Alternative because it would impact more wetlands, relocate more than twice as many residents, and has more noise impacts. However, EPA also recognizes the Center Alternative may have greater impact to low income and minority communities. The Document also is deficient in providing wetlands mitigation.

Final EISs

ERP No. F-AFS-E61037-TN Upper Ocoee River Corridor Land and Water-Based Recreational Development, Implementation, Cherokee National Forest, Ocoee Ranger District, Polk County, TN.

Summary: EPA expressed environmental concerns with increased traffic and its potential impacts.

ERP No. F-NPS-C61009-NY Manhattan Sites General Management Plans, Implementation, Castle Clinton National Monument, Federal Hall National Memorial, General Grant National Memorial, Saint Paul's Church National Historic Site and Theodore Roosevelt Birthplace National Historic Site, New York and Westchester Counties, NY.

Summary: EPA determine that it had no objections to the proposed project.

Dated: April 29, 1997.
