

(OIT) announces its interest in receiving applications for innovative research and development (R&D) in support of the "Glass Industry Initiative" to improve efficiencies of production, energy, environment and innovative types or uses of glass. This R&D will deal with improvements in the manufacture of glass in the U.S. focusing on four aspects of glass manufacturing, namely: production efficiency, energy efficiency, innovative types or uses of glass and environmental protection and recycling. The R&D also covers several specific subtopics supporting one or more of the four topical areas.
