OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Identification of Priority Foreign Country Practices; Request from Public Comment

AGENCY: Office of the United States Trade Representative.

ACTION: Request for written submissions from the public.

SUMMARY: Executive Order 12901 of March 3, 1994, as amended by Executive Order 12973 of September 27, 1995 (as did the "Super 301" procedures in the Omnibus Trade and Competitiveness Act of 1988), requires the United States Trade Representative (USTR) to review United States trade expansion priorities and to identify priority foreign country practices, the elimination of which is likely to increase United States exports, either directly or through the establishment of a beneficial precedent. USTR is requesting written submissions from the public concerning foreign country practices that should be considered by the USTR for this purpose.

DATES: Submissions must be received on or before 12:00 noon on Thursday, July 10, 1997.

ADDRESSES: 600 17th Street, NW, Washington, D.C. 20508.

FOR FURTHER INFORMATION CONTACT: Questions concerning the filing of submissions should be directed to Sybia Harrison, Staff Assistant to Section 301 Committee, (202) 395-3432; legal questions regarding the executive order and its implementation should be addressed to Irving Williamson, Deputy General Counsel, Office of the United States Trade Representative, (202) 395-2432.

SUPPLEMENTARY INFORMATION: By Executive Order 12901 of March 3, 1994 (59 FR 10727), the President ordered USTR to identify trade expansion priorities for calendar years 1994 and 1995, given that the identification provisions of section 310 of the Trade Act of 1974 (commonly referred to as "Super 301") were then no longer in effect. By Executive Order 12973 of September 17, 1995, the President

extended this identification process to calendar years 1996 and 1997 (60 FR 51665). Section 1 of E.O. 12901, as amended by E.O. 12973, requires the USTR, no later than September 30, 1996, and September 30, 1997, to review United States trade expansion priorities and identify priority foreign country practices, the elimination of which is likely to have the most significant potential to increase United States exports, either directly or through the establishment of a beneficial precedent. A report on the practices identified must be submitted to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives, and published in the Federal Register. Section 2 of E.O. 12901 requires the Trade Representative to initiate investigations under section 302(b)(1) of the Trade Act of 1974 (19 U.S.C. 2412(b)(1)), no later than 21 days after submission of the report, with respect to all of the priority foreign country practices so identified. The USTR may also cite in the report practices that may warrant identification in the future or that were not identified because they are already being addressed and progress is being made toward their elimination.

Requirements for Submissions

The USTR invites submissions on foreign country practices that should be considered for identification under E.O. 12901. Submissions should indicate whether the foreign policy or practice at issue was identified in the 1997 National Trade Estimate Report on Foreign Trade Barriers (NTE Report) published by the Office of the USTR on March 31, 1997 (U.S. Government Printing Office, ISBN 0-16-049024-3), and if so, should cite the page number(s) where it appears in the NTE and provide any additional information considered relevant. (A copy of the NTE Report is maintained in the USTR Reading Room and also can be located at USTR's Internet Home Page address, which is: <http://www.ustr.gov>.) If the foreign practice was not identified in the NTE Report, submissions should (1) include information on the nature and significance of the foreign practice; (2) identify the United States product, service, intellectual property right, or foreign direct investment matter which is affected by the foreign practice; and (3) provide any other information considered relevant. Such information may include information on the trade agreements to which a foreign country is a party, and its compliance with those agreements; the medium- and long-term implications of foreign government procurement plans; and the
