Fish and Wildlife Service

Notice of Intent To Prepare a Comprehensive Conservation Plan

SUMMARY: This notice advises the public that the U.S. Fish and Wildlife Service (Service) intends to gather information necessary to prepare a comprehensive conservation plan (CCP) and environmental documents, pursuant to the National Environmental Policy Act and its implementing regulations, for Rachel Carson National Wildlife Refuge, York and Cumberland Counties, Maine; and Great Bay National Wildlife Refuge, Rockingham County, New Hampshire. The Service is furnishing this notice in compliance with Service CCP policy:

- (1) to advise other agencies and the public of our intentions, and
- (2) to obtain suggestions and information on the scope of issues to include in the environmental documents.

DATES: Written comments should be received on or before January 5, 1998.

ADDRESSES: Address comments and requests for more information to one of the following:

Refuge Manager, Rachel Carson National Wildlife Refuge, 321 Port Road, Wells, Maine 04090

Refuge Manager, Great Bay National Wildlife Refuge, 336 Nimble Hill Road, Newington, New Hampshire 03801.

SUPPLEMENTARY INFORMATION: It is U.S. Fish and Wildlife Service policy to have all lands within the National Wildlife Refuge System managed in accordance with an approved CCP. The CCP guides management decisions and identifies refuge goals, long-range objectives, and strategies for achieving refuge purposes. The planning process will consider many elements, including habitat and wildlife management, habitat protection and acquisition, public use, and cultural resources. Public input into this planning process is essential. The CCP will provide other agencies and the

public with a clear understanding of the desired conditions for the Refuges and how the Service will implement management strategies.

The Service will solicit information from the public via open houses, meetings, and written comments. Special mailings, newspaper articles, and announcements will inform people in the general area near each refuge of the time and place of such opportunities for public input to the CCP.

Review of this project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), NEPA Regulations (40 CFR parts 1500-1508), other appropriate Federal laws and regulations, including the National Wildlife Refuge System Improved Act of 1997, Executive Order 12996, and Service policies and procedures for compliance with those regulations.

We estimate that the draft environmental documents will be available by November, 1998.

Dated: November 24, 1997.

Ronald E. Lambertson,

Regional Director, U.S. Fish and Wildlife Service, Hadley, Massachusetts.
